THE FIRST DAY OF SCHOOL

The first day of school is the best day

of the year. You feel so important and happy and tall

and you have some new clothes, and in your

new shoes.

Now, you are ready to go to school.

And teacher looks fresh and a little bit

stiff. The blackboard is painted all shiny and

shiny. And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.

And you know it really is good to be back.
