EDITORIAL NOTES

Tun recently announced curtailment of munition orders will probably not be felt to the full exteet until the harvesting oper ations are concluded. The mining industry is almost certain to be materially bensfited bythe release of part of labor employ ed on munitions. - Although there is some diffidence about the readjustment period, it is recognized that this is but the first stage of a general reconstruction that will inovitable as the ond-of-the war-come

DONESTIC ECONOMIZING IS a patriotic daty, but if not praticed, the time may be approaching when it will become grim necessity. Patriotic people will agree with every word of the Food Controller's advice to Canadian consumers, urging the necessity of strict economy and a reduction in the use of cortain food commodition. Elimination of waste means ; fooding the British population ; saving money to each Canadian household; filling our British brothers' dinner pails, and finally winning

THE TOWN COUNCIL of Burlington has passed the following resolution: "Whereas petitions signed by wives of soldiers who have enlisted for overseas service in the county of Halton were presented to the County Council on the 21st of August requesting that the patriotic payment should be increased to an amount equal to that paid in other municipalities in the province. and the said Council did not reach any decision with respect to the same, and whereas the need is urgent, wherefore the Council of the town of Burlington wishes to place itself on record as being unanaimiously in favor of each potitions"

THE TIME between the harvesting and the seeding of winter crops is exceptionally abort this year. Many farmors will be unable to thresh their wheat before it is time to now for another crop. Farmers who have already threshed good, pure grain of standard varieties of winter wheat or of winter rye might advertise their surplus for seed purposes to advantage, both to themselves and to others. Every effort should be made to increase the winter crop area as much as possible. The wheat greatly needed and the increased acrosge nown with winter crops will lessed the labor required for apring seeding, and also extend the harvest over a longer period next year. Lot all aim for a million across of winter crops for 1018.

tario Government, at the request of the portance of the telephone can hardly be the G., P. & H. Railway, and general Dominion fuel controller, is drawing the catimated. It has become a valued conattention of the public to the fact situa- venience in rural Ontario, but here, with tion in the province. It is pointed out farm houses on square mile farms, and that war conditions have affected the often far from the road in order to be in normal supply of coal and rendered impers. | abeltor of a friendly "bluff" in winter, life tive that every consumer practice the ut would to lonely indeed, and business most thrift. Municipal, religious, educa- tedious without it. The loan of an impletional and other authorities and bodies are ment ; the locating of a stray animal, the of Irish Freedom. Several men and requested to repeatedly urgo and impress usual emergencies of farm life, and many the following considerations spon the pub- other business calls are quickly attended lio: 1. Refrain from using fuel of any kind, to. And socially, what good times of including gas, until it becomes absolutely chatter and chuckle, with information. necessary. 2. Practice rigid economy in advice, arrangement of calls, enquiring the use of fuel. 3. Wherever possible use after bealth, encouraging the paster, etc. substitutes for coal to the Tulicat Possible Oh'l Mr. W. Graham Bell builded better extent. 4. Guard constantly against wasto | then he knew back in the seventies. of fuel when making or cleaning fires and when using gas. 5. Thoroughly wift att coal ash, and burn the residue. The rerult will be surprising. One-tenth of the over again, but is sadly behind in cultivatfuel originally fed to the fire has been re- ed fruits. Nearly everything has to be covered and utilized in this way.

NOTES FROM MANITOBA

interesting Details of the Growth of the Crops, the Harvest, and other incidents

Since my notes several weeks ago a creat change has come dver the face of the

Instead of the beautiful fields of groom rowing grain, checkered off here and there by brown belts of summer fallew, a great, golden glow has become the provailing picture. This is interspersed with the green of late cats, or a growth on the summer fallow. But a another charge has rapidly occurred and by the time those notes reach FREE Pages readors the wide expanse will represent semething of the prearance of a vast encampment, with the rows and rows of conical-shaped stocks. Cutting variously commonced between

August 12th and 20th, and is now in terrible carnest. From early until late, with changing teams, the rattle of the binder goes on almost lucessattly. The crop is very good and the price is high, but fours are colortained that it may drop someperhaps to \$2.00.

Onlinery help is hardly able to cope with the stocking, but the Galician settlement up north will probably send down mes and toams to throsh, and probably they will helpat the stocking. There is an omer goody gang of town professional men formed for belging. The lawyer-who is Mayor the druggist, principal of the consolidatd school, inspector of school district, the lumber yard and elevator managara, go out by auto in the alternoons where wanted, at 30 cents per hour and no meals, the procoods to be devoted to patriotic purposes. I would much like to be able to see a similar number from the same preferaions from "down home" up here to work alongside, for the rake of the seeing, anyhow,

All diversions from the besten path o and work had to be gotten out of the way n the space between seeding and reaping, which was brief, for it has astonished me now rapid seemed the change from the soud, which I saw put in the ground after came late in April, until the same is

There have been three important events. n June the County Sunday School convention called together large gatherings to all the sessions of the day. Notable was again next winter. the interest taken by rugged, weatherpatriotic ladies served meals at paying prices, and had a rushing business. Rev. Manson Doyle, who has been as near Acton vative caucus, remains head of the as Rockwood, was an important outside Government.

On July 12th a mammoth Orango cole bration was held ; some twenty-two lodges streets now before the Senate. being in parado, with a great variety of accompanying music. A terrific downpour of rain scattered the crowd just after the first speaker from Winnipeg commono ed and the scores upon scores of autos were quickly crowded, as well as cattle sheds grand stand, band stand, etc.

The agricultural exhibition was held on August lat, but being right in good hay weather, was not up to the usual success. Such a thing as a fall show as in Ontario is however out of the question.

In carrying on this extensive farm work By means of large display bills the On- on these half and whele sections, the Im-
