........... REMEMBERING SMALL THINGS

"Claudius Clear," writing of the memor in the British Wookly, says : Those friend who after years of acquaintance do not know whether you want no sugar or one lump or two lumps with your ten are irritating. The remembrance of such little things is endearing. I presented a friend of mine on her marriage with an amothyst brooch Ever after when I dined at her home she were it. Nothing was over said between us, because both knew, and shall never forget.

Milburn's Heart and Nerve Pills will give prompt and permanent relief to all those suffering from any weakness of the heart or nerves. Mrs. A. Russell, Niagara Palls, Ont.

"Br. Fowler's" Cured Her.

There is no other kind of disease comes on one so quickly and with so little warning as an attack of cramps, colic or howel complaint in one form or another. A person may retire at night in the best

of health, and before morning be awakened by terrific cramps followed by diarrhoes or dysentery. At this season of the year when bowel

troubles are so prevalent, it would be wise to take the precaution of having a bottle of Dr. Fowler's Extract of Wild Strawberry in the house, ready for any emergency.

Mrs. P. Martin, Brandon, Man., writes: "Last summer, in the hot weather, I was taken very sick in the middle of the night with awful cramps. I suffected two days and nights when the doctor was called in. He prescribed pills and powders which gave little or no relief. A friend said that if she were in my place the would order a bottle of Dr. l'owier's Extract of Wild Strawberry. It came about noon, and the next afternoon I was able to sit up. I highly recommend 'Dr. Powler's' above anything else, for I have proved it to be the best bowel complaint remedy I know of."

PLAIN LIVING-HIGH THINKING

We devoutly, wish that the above title might bothe mosto of the present century. To do away with luxurios and superiflution of overy kind would be a grand advance toward higher and better ways of thinking

So long as our minds are boot only on the accumulation of riches, we cannot look forward to any great intellectual advancement. We cannot altogether ignore the needs of our bodies, but surely these should he subordinate to mental improvement and development

Luxurious living always tonds to mental deterioration and enfeeblement. It brings speedy decay to the body, and saps the test attributes of the soul. But living more for the sake of the soul than the body, life soon takes on a newness, a free prose, and beauty, only to be appreciated by those who seek and find true ways of spending their liven.

But the majority of mankind find a delight in the pursuit of riches. Though comparatively fow win the prize, yet most enjoy the persistent seeking after it. 'No wonder Christ says so many things against riches, and their accumulation for solfish onds. They have over stood in the way of the intellectual and spiritual improvement of our race. Home day, and perhaps not se very far distant, a more rational pursuit will engross men's minds, and all shall fool nobler and better for entering into its compotition. God grant that day may come ! Then happinees, perchance, will -hover over every household and many of the hates and joalouslos of life shall cease. Surely life can never be a failure if richly lived and enjoyed .- Interior.
