Tue latest returns in the Victory Loan campaign show a total of 785,714 subscribers, brone subscriber for every ten people in Canada. This cetablishes a new record with respect to the proportion of the population of a country subscribing to its War Loans. The provious record was held in Nelson-Great Britain, where one person out of every twenty-three subscribed to the last War Loan. In the Liberty Loan campaign in United States, bonds were sold to one out of every twenty-seven of the population. In many cities, town and districts is Canada, the proportion of the population buying Victory Bonds was oven bigher than one in ten. In a number of cases it was as high as one in four. In Halton County the ratio was one in six. This achievement in connection with Canada's Victory Loan, while primarily due to the sploudid spirit of patriotism that pervades the country, is another evidence of what may be accomplished through press advertising backed by an adequate selling organ-

THE TOWNS GIVE MAJ. OF. 1277

The electorate of Halton County spoke nomistakabily in favor of UnionGovernment at the polis on Mouday. In every municipality in the county, and in nearly every polling achdivision, Dr. Anderson, the Unionist candidate, was given large majoridea. The majority in the county is 2081. Of this the towns contributed 1277.

The women's vote was a large contribut og element in piling up the big majority. They went into the campaign systematically and intelligently and proved very conclusively their ability to exercise the franchise with slacrity. It was thought that through their lack of experience roting there might possibly be a larger umber of spoiled ballots cast than usual. This, however, was not the case, very few ballots were speiled at any polling place in the county. In Acton, with over 400
