THE SANCTITY OF FUN

We are doing part of our life work when we are making a good time for somebody. The world has been a little slow to realize the sancity of wholesome gayety, and too often has made right of it. Happy people, whether their happiness is the spontaneous gayety of a little child, or like Stevenson's, secured through brave self-conquest, are benefactors of their kind. Some one has said that next to the virtues, the fun in the world is what we can least spare. An earth peopled with beings who never smiled, never

ARE KNOWN BY WHAT THEY LAUGH AT

It has been observed, says the New York Evangellat, that the general characters of people can be determined by their natural laughs. The condescer?!ing laugh of the supercilious, the superficial laugh of the hypocrite, the repulsive amirk of the cold-blooded and natural villian, the fawning smile of the tricky schemer, "the noisy laugh which shows the vacant brain," and the genial laugh of the large and truehearted man, all are telltales.

A Truck for the Farmer

FARM equipment which will effect a time and labor-saving, and therefore a money-saving, must be care-fully considered by every good farmer now-a-days.

The farm wagon, which for years was the most useful of all farm equipment, is now being replaced on the best farms by a sturdy, dependable motor truck. The truck will haul any farm product—fruit, grain, vegetables, stock, fertilizer, or wood—around the farm, or to the town or city many miles distant, in half the time, and at a much lower cost.

The Ford One-Ton truck is a rapid, economical and very serviceable means of transport. One of these on your farm will save you weeks of time in a single season and will enable you to pass through a crisis of labor shortage with less difficulty.

The Ford truck is supplied as a chassis only. This permits you to select any of the many body styles especially designed for the Ford truck and already on the market. Thus you can mount the one which suits your individual requirements.
