**IN MEMORIAM**  
GAMBLELL—In affectionate memory of my dear father, Benjamin John Gamblell, who was killed in action, in France, on the 11th June, 1918, at Ypres.

Death of little working man.  
That called dear father to his grave,  
And our thoughts do daily stray  
To that grave as far away.

**EDITORIAL NOTES**  
The Editorial Association of Northern California, in a recent session, adopted by a virtually unanimous vote, a resolution urging that immediate steps be taken to close the saloons of the State and of the nation as an aid in the labor shortage which the country is facing during war-time.

Ex-President Taft's call for United States intervention along with Japan, is important. What Mr. Taft calls for is not a new front and save Russia, is important. What Mr. Taft calls for is not a new front and save Russia, is important. What Mr. Taft calls for is not a new front and save Russia, is important.

Every effort is being made to provide sufficient supplies of sugar for the canning season. The Canada Food Board says that while restrictions in the consumption of sugar in given ways are necessary and must be strictly enforced, still by the present arrangements there will be plenty of sugar for canning purposes when the season arrives. Every person should, therefore, aim to preserve fruit and vegetables to the utmost permitted by increased production.

Resolutions relating to social problems in Canada were adopted by the Presbyterian General Assembly at London last week. These resolutions urged the expropriation of all existing stocks of liquor, the sweeping curbs on the sale of liquor, and the strictest observance of the Sabbath and the limitation of the ravages of venereal diseases. One of the resolutions severely censured the Senate for its rejection of certain amendments to the Criminal Code.

The Germans renewed their assaults on the west front during the week. The plan since the beginning of the campaign in March has been, the military critics say, to drive wedges or salients into the Allied lines and then to exert force as in the closing of the blades of a scissor to force a withdrawal of their opponents. The scissor operation is now being tried. The allies are still confident and Paris, which is apparently the German objective, is said to be called though not forty miles from the scene of battle. The reports yesterday were very reassuring.

The Canada Food Board is receiving a great number of inquiries relative to the food regulations applying to picnic, garden parties, lawn socials, etc. Special permits to serve food contrary to the regulations are being asked for, but such permits will not be given. The Canada Food Board stated on Tuesday that execution of the regulations was prompted by the need of saving wheat, meat, fats and sugar, and that any little deviation to which the victuals, or other persons participating a function of this kind, may be put is regrettable in the face of the acute scarcity of war conditions.

According to the Canadian Industrial Reconstruction Association, statistics compiled indicate that since the war began there has been a vast increase of trade between Canada and Great Britain. Last year Canadian exports to Great Britain were valued at \$130,000,000 as against \$146,000,000 in 1914. In the year in which war was declared the Dominion shipped 54 per cent of its products and manufactures to countries within the British Empire. In 1917 the proportion was 67 per cent. Exports from within the Empire increased from 17 per cent to 25 per cent. Munitions, war supplies and food represent a great proportion of the increase in exports.
