A very interesting and helpful sermon was delivered. Dr. Moore gave interesting Dominion and the improvement in the Dominion and the improvement in the Dominion touching child welfare, the liquor traffic, social vice and the large volume of rescue work currently being undertaken by the church. His address was of a most interesting character. A general offering for the preparation of this laudable work was contributed by the congregation. Rev. J. C. Wilson, B. A., at Milton. The Milton papers speak very complimentary words regarding Rev. J. C. Wilson, B. A., of Milton, in his recent visit to Acton. The preacher for the day was Rev. J. C. Wilson, of Acton. The service was a very interesting one. In the evening Mr. Wilson preached on the subject of "Drifting." Both services were of a high order and delighted the congregations. Mr. Wilson will always be cordially welcomed in Acton. The reformer makes having a preacher Mr. Wilson's ability and fearlessness in the pulpit, the kind of men who are needed these days. An Advertisement by Charles Dickens

CHARLES DICKENS is one of the world's great teachers. Here is what he has to say in one of his books:

"My other piece of advice, Copperfield," said Mr. Micawber, "you know. Annual income £20, annual expenditure £19, 10, 6—result, happiness. Annual income £20, annual expenditure £20, 0, 6—result, misery. The blossom is bright; the leaf is withered, the God of Day goes down upon the dreary scene, and—and in short you are forever floored. As I am." There is war-shortening work waiting for every dollar that can be saved. If Charles Dickens were writing to Canadians to-day he would probably give us advice to this effect: "My other piece of advice, Canadians, you know. No matter what percentage of your annual income you have previously saved, your efforts to-day should be to save more. The advantage of so doing is threefold. By the practice of economy you conserve the material and labor which must be devoted to the grim task before us; you cultivate the priceless habit of thrift; you gather more and more money to lend to the Nation for the prosecution of the war to a quick and certain victory." Prudent men and women have always maintained a margin of saving. But to-day we must go farther in our efforts to save than ever before. To-day it is a matter of the gravest importance that each Canadian seek ways and means to economize by cutting down expenditures for unnecessary things, saving the money he spends on things he could do without, so that when the Nation needs to borrow money he will be in a position to do his full duty.

DEALING POINTEDLY WITH PRESENT CONDITIONS AND FUTURE PROSPECTS

At present our stocks are surprisingly complete in every detail. We should not however, consider it necessary to make this announcement to you if it were not for the extraordinary mercantile conditions which prevail to-day.

We advise you to make your purchases at once, however, because delay is almost sure to mean disappointment. If you buy now, you will have stocks to choose from almost as complete as any we have ever offered. If you wait until later, you will have to depend upon merchandise hurriedly gathered together from various sources. This in addition to the fact that a further increase in prices is inevitable.
