Editorial Notes

November 11, or the Monday nearest that date, should forever be observed as Canada's Thanksgiving Day, in memory and honor of this immortal second Monday in November that brought its dawn of peace and glory of the greatest morning that has lit the darkness of the world "Since first the morning stars sang together and all the sons of God shouted for joy." —Telegram.

Canada has money and the hearts of our people are in the right place. With the magnificent success of this month's Victory Loan Campaign which raised $676,057,000, it is indicated that a total of one billion, six hundred and seventy-three millions, has been raised in Canada war loans since the beginning of the war. The great bulk of this was subscribed in Canada by Canadians.

The Milton Reformer celebrated its thirty-fourth year of publication last week. Mr. Richard White, the editor, has been in charge from the first issue. What the Reformer is he has made it, and it has had an era of hard work and deserving prosperity. No real paper is more loyal to its constituency than is the Reformer to the County Town. The Free Press offers congratulations and best wishes for continued success. Mr. White, the editor, supplied two sons who did their bit in bringing the despised dethroned Kaiser to his knees.

The end of the war has come, but Canada must not relax her efforts to increase the production of food. In addition to the Allies, whose productive powers have been hampered by the war and who need imports from this continent to build up a reserve, the people of the neutral nations must be considered. The Canada Food Board calls attention to the fact, also, that the countries of the defeated enemy nations have also to be considered as in some cases millions of helpless people are facing starvation. Canada will have a hungry market for her agricultural product and our greatest possible effort to maintain and increase production will be none too great.

In the twelve months ending with September, Canada exported $163,088,-163 worth of animal products and $440,742,430 worth of agricultural products, a total of $604,230,792. In addition to her farm products she exported over $33,000,000 worth of fish. In the first 47 months of the war Canada exported $1,874,701,900 worth of foodstuffs. This effort has helped to maintain the Allies and it has helped Canada maintain her war efforts. The call to Canada is still for production and by increased production Canada can easily pay her billion dollar war debt and maintain Canadian prosperity.

Opinions of statesmen, financiers and business men differ as to the immediate effect of peace on the industrial and commercial life of Canada. It is too early yet to intelligently discuss just what conditions may be, but the great work of re-adjustment was under way by our government before the armistice was prepared. Very little reduction in the high cost of living is probable in the immediate future. The war has created necessities which will demand existing stocks of food and clothing. Following the advent of peace, and the consequent falling off in demand for funds for war account, money in the opinion of many authorities is expected to become cheaper before a great while. This consummation will accrue to the benefit of both industrial and stock market enterprises.

In the appointment of Reeve Hynds to the position of Clerk and Treasurer, rendered vacant by the lamented death of A. J. Mackinnon, this town secures a very efficient successor to fill this important office. Mr. Hynds has had a long experience in municipal affairs. Year after year he has received the approval of the ratepayers, either by acclamation at the annual nominations or by election in the case of municipal contests until he has put in nearly a quarter of a century in serving the people of Acton. He has given freely of his time and talents in the interest of public matters of the municipality. In the transaction of business matters he is careful and exact, and the record of the municipal business and the transactions of the financial interests pertaining thereto, will be satisfactorily overtaken by him as Acton's Clerk and Treasurer.

Reeve Hynds Has Resigned

The Council Has Appointed Him Clerk and Treasurer to Succeed the late A. J. Mackinnon

COUNCILLOR HENDERSON REEVE PRO TEM

Council met in regular session at 8 p.m. The vacant chair of the Clerk and Treasurer gave mute evidence of the sudden decease of the one who had been a faithful occupant thereof for many years past.

There was naturally a keen feeling of sorrow at the death of Mr. Mackinnon the day previous.

The members were all present, Reeve Hynds in the chair.

The Committee on Finance presented their twenty-seventh report and recommended payment of the following accounts:

HYDRO-ELECTRIC	
Hydro-Electric Power Com....	$454 50
James, Henderson, poles	6 00
Nerlich Co., supplies	9 89
Charles Wilson, repairs	1 68
GENERAL ACCOUNT	
Allan Smith, tile	$44 25
J. B. Mackenzie, lumber and cement	19 79
Across Fess Press, printing etc.	11 50
Robt. Storey, work at cemetery	13 50
W. J. Reid, stationery	1 80
	$90 84

The report was adopted.

Messrs. Hynds and Kennedy were appointed to prepare a resolution of appreciation of the late A. J. Mackinnon, Clerk and Treasurer.

Councillors Kenney and Henderson were appointed to represent the Council at the funeral of the late A. J. Mackinnon, Clerk, at Caledon on Tuesday.

Messrs. John R. Kennedy and Henry Awrey were appointed members of the Board of Health.

The matter of the vacant clerkship came up for discussion.

The Reeve said that several of the Councillors had suggested that as he had had a long experience with the affairs of the municipality, and had been closely associated with the clerk during his eight years' occupancy of the Reeveship, it would facilitate business of the municipality at this important time if he could see his way clear to accept the vacant position. He felt that he understood the duties, better perhaps than any other citizen available, and was willing to leave himself in the hands of the members of the Council.

Councillor Woodhall thought the appointment of Mr. Hynds would be the best possible solution of the difficulty confronting the Council. He was well qualified for the position.

Councillor Barber objected to the course proposed. He thought the Council should engage a Clerk and Treasurer temporarily and with Mr. Hynds' assistance the duties of the office could satisfactorily be carried on until the end of the year. If this were done, and he was a member of the Council next year he would then be more favorable to Mr. Hynds' appointment as Clerk. He did not like resignations of members of the Council before the end of the term, and in this case he was decidedly opposed to engaging a Clerk and Treasurer without giving other applicants an opportunity of applying for the position.

Councillor Kenney pointed out that the office required some one who understands the duties to step in at once as matters of importance demand immediate attention.

Councillor Henderson concurred in this and said he did not think it at all feasible for any inexperienced man to step into the office at this time. He was strongly in favor of Mr. Hynds for the position.

Councillor Woodhall—"If any man has earned the position by long and faithful service of the municipality it is Mr. Hynds."

In consideration of the desire of the majority of the members Reeve Hynds then tendered his resignation.

Moved by W. R. Kenney, seconded by C. Woodhall and resolved that this Council hereby accepts the resignation of George Hynds, Reeve of this municipality; In doing so we desire to place upon record our high appreciation of his long term of service, both as a Councillor and for the past eight years as Reeve. In our association with him we have always found him courteous and considerate and a public servant whose constant endeavor has been to work for the best interests of the municipality we have been elected to serve.—Carried.

Moved by C. Woodhall, seconded by W. R. Kenney, and resolved that this Council hereby appoint George Hynds, to the office of Clerk and Treasurer of the Municipality of the Village of Acton, to fill the vacancy caused by the lamented death of A. J. Mackinnon; that he commence the duties of the office forthwith; that he be engaged during the pleasure of the Council; that the salary be fixed at the rate of Five Hundred Dollars per annum, and that the auditors of the municipality be instructed to make an immediate audit of the books of the late Treasurer.—Carried.

Upon motion of Councillors Kenney and Woodhall Councillor D. A. Henderson was appointed Reeve until his successor is elected at the forthcoming municipal elections.

THE CHRONICLE OF KAN-UK THE KUTE

A new war volume in quaint old-time phraseology has just been placed on the Canadian book market by Wm. Briggs, Toronto. The author is Frank Burne Black, and the title page has this inscription: "The Chronicle of Kan-uk the Kute; being a copy of a scroll inscribed by him, what time he did travel in his caravan throughout the land of Kan-a-Da and of Am-erika in the days of the Great War, and now given to the world by its finder." The author says: "Behold I write not up to any man as to a patron, nor down to any man as to a slave." This somewhat amusing but highly interesting chronicle gives the biography of Will-Yum of the Huns, and tells how the war did arise, "and why it is good that this chronicle should be writ." It contains a world of laughter, abundance of sound philosophy, and puts Will-Yum of the Huns in his true character before the world. This volume will be in great demand both for public and private libraries. The price is $1.00.

This township has been noted for the longevity of numbers of its pioneer residents, especially among the women. Last week there passed away one of the mothers-in-Israel who had reached the extreme age of 101 years—Mrs. Thomas Taylor, who has for some years been living at Eden Mills. Mrs. Taylor was ill only a few days with pneumonia. At the laying of the corner stone of Ebenezer Church she was present and was one of the happiest participants. She was present at the opening of the first church and rejoiced in the prosperity of the congregation when the fine new edifice was erected. Three sons and three daughters survive her.

The funeral of the late Prof. A. J. Galbraith, of Manitoba Agricultural College, who died at Winnipeg, took place on Thursday afternoon from the residence of his father-in-law, Marshal Holmes, Brookville, to the Nassagaweya Cemetery. The funeral was a Masonic one, and was held under the auspices of Waverly Lodge, No. 391, A. F. & A. M., Guelph, of which deceased was an honored member. The service at the house was conducted by Rev. Mr. Strachan, of Nassagaweya Presbyterian Church, assisted by Rev. H. E. Abraham, Rev. Dr. Blair, and Rev. H. K. Palmer, all of Guelph, and was very impressive. The Masonic brethren also held their own service at the house and the grave. The floral tributes to the memory of the deceased were very beautiful indeed, and bore silent testimony to the very high esteem in which he was held.

THE TROUT PONDS

Rev. Dr. Hugh Johnston, of Baltimore, Md., who spent part of his holidays last August at the Trout Ponds, with his daughter, Mrs. W. A. Firstbrook and family, has been writing a very interesting series of descriptive letters of his visit and motoring trips in Western Ontario in the Baltimore Methodist. Referring to the drive from Toronto, the facile pen of the eloquent Dr. Johnston says:

"We are making another automobile trip through the fairest portion of Western Ontario. Our starting point again is Toronto, a city which I have known pretty intimately since I was a boy student of fifteen.

"We take a northwesterly direction through the city until we reach the Lambton Golf Grounds, beautifully kept but not quite so well as before the war.

"Leaving the Lampton Golf Club we drive on for forty-five miles to Acton, stopping only at the thriving town of Brampton for an ice-cream refreshment and at Georgetown a village climbing up the bank of a river, on the top of which a church or two stands out against the evening sky. Here we pause to purchase that delicious product collected by the busy little bees from the blossoms of flowers and deposited in the hexagonal cells of their combs—that clear and beautiful sweet, called honey.

"At Acton we are to spend three or four restful days in the bungalow of our son-in-law. The Firstbrook brothers have here a farm and fish-ponds containing thousands of mountain trout. For this is the highest elevation above the sea in Western Ontario. Here also the birds sing all day long; for Canada has more than a hundred varieties of birds. Some of these are more anxious to catch the fish in the ponds than to make music, and are themselves caught by rifle or snare.

"Here also is a forest of trees, adjudged by John Burroughs, the great naturalist, who has gone through it, to be one of the finest in America. Ontario has sixty kinds of trees—maple, ash, beech, oak, elm, birch, cedar, the various kinds of pine and spruce, etc. In front of the Bungalow is a noble basswood tree, with its shade and fragrance

"'The summer home of murmurous wings.'

"'Basswood is the universal name of popular speech, but the classic and poetic name is the Liner, the Lime, and the Linden—

"'Where air-swept Lindens yield
Their scent, and rustle down their perfumed showers
Of bloom on the bent grass.'"
