RESULTS OF INFLUENZA. Medical authorities have stated, "There is no knowing how far-reaching the results of the influenza epidemic will be."

From the nature of the malady it is feared many cases of tuberculosis will develop. If you have not fully recovered from the "flu" or you are run down in health from some other cause, seek a doctor at once. Consumption may have been developed, but even that will be cured if taken in time. A case in point has recently been brought to our attention—a farm laborer with a wife and five small children. He had not been feeling right for some months, not sick enough to go to bed, or stay indoors, but always tired. His daily work about the farm had become a task to him. So of his own accord he went to the Muskoka Free Hospital, to try and find out what was the matter. He was found to be suffering from tuberculosis, and was immediately taken in and put to bed. The doctors say this man is making a good recovery, and that he will shortly be able to return home. The Muskoka Free Hospital for Consumption is now appealing for aid in fighting the Great White Plague. The money you give will help restore to health just such deserving cases as this, bringing happiness untold to re-united families. Contributions may be sent to Sir William J. Gara, 84 Spadina Avenue, Toronto, or to Geo. A. Reid, Secretary-Treasurer, Gage Institute, 223 College Street, Toronto.

The Advertiser. I am an Advertiser! I think pretty well of myself! I have Ambition! I have Ability! I have Friends! I have Experience! I have Honor! I have Ingenuity! I have Ideas!

All these things I am using every day for the betterment of myself and of my business to the end that I may be able to say in future years: "I have Prosperity, and a Well-established Business, one that I am proud of," and yet that I can say, as now, "I have Friends! I have Honor! I have still my own Self-respect! An opinion of Myself that must demand recognition in this World of Business.

I am an Advertiser! Because of this I am known to stand for the things that I believe in; that I do; that I believe others should do; and the things that will always be done so long as there remains in the World One Man who is strong enough to say, "I believe in Myself and in my future!"—By William M. Adrian.
