A TEMPORARY POST

There are some young people who do not seem to think it necessary to do their bent in work which is not permanent. "I am only here for the nummer, you know," said 'a student who had taken a position with a local firm for the vacation months. "Nothing depends on my making a record." And so he continued in conversation with his friend while a customer walted with growing impatience and finally rose and left the store. Beforce Christman, thin young man

was looking for work. His father was in business difficulties, and could no longer support him. Naturally the boy went at once to his employer of the previous nummer, only to be assured that there was no place for him. In his work he had been pensensed of the idea that it was unsecessary for him to make a record, and he had made a reputation for inefficiency, which interfered with his obtaining a position not only in the establishment where h had worked, but olsewhere.

There should be the same inspira -Frank L. Stanton tion to do one's best in a temporary position as in a permanent one. For both afford a chance to make a reputation and to build up character.

OUR DEBT TO OUR WORK

When we think of our debt to our work, we are very likely to begin and end with the fact that it gives us livelihood. To our work we owe food and clothing, shelter and fire. But when these items have beer enumerated, we have only made a beginning. Our work is our most constant companion. It absorbs our enbours, and much of the rest of the time we are thinking over what we have done, and looking forward to what we have to do. There are few beyond the seas, things which exert such an influence on our lives, as our work. Through it we learn method and concentration. We learn faithfulness to a routine.

Press Advertising Sold Victory Bonds

EFORE the war, bond buyers were "marked men." In number they were 40,000 in March, 1017—this is shown by the number of purchasers of the Government War Loan of that date. But in the autumn of the same year, their number increased twenty times-to 820,000 ! This was the number purchasing the Victory Loan, 1917. Last month-November, 1918-over 1,000,-000 persons purchased the Victory Loan, 1918 !

These wonderful results were accomplished by Press Advertising.

Before the war one-half of one per cent. of our people hought bonds. Now quite twelve and one-half per cent. of our people are bond buyers !

Before the stupendous amount of \$676,000,000 worth of Bonds could be sold to our Canadian people in three weeks a most thorough and exhaustive campaign of education was necessary, and this campaign was carried through by advertising in the public press. The power of the printed word never had a more convincing demonstration.

By means of the printed word, through the medium of advertisements in the press of our country, the Canadian people were made to know what bonds are, the nature of their security, their attractiveness as an investment, and why the Government had to sell bonds.

Every point and feature of Victory Bonds was illustrated and described before and during the campaign-in advertisements, No argument was

Hold, Secretary Treasurer, Gage Ing.

overlooked. No selling point was neglected.

The result is that Canadians to-day are a nation of bondholders.

They know what a convenient, safe and profitable form of investment bonds are. Instead of one man in two hundred owning bonds, now one Canadian in eight-men, women and children-owns to Government Security. -

This complete transformation in the national mind and habits was brought about by advertising in the press of the nation. Press advertising has justified itself as the surest and speediest method by which a man's reason can be influenced and

.The Minister of Einance acknowledges' this. His own words are:

"The wonderful success of the Loan was due in large measure to their (the press of Canada) splendid and untiring efforts during the whole of the Campaign."

Mr. E. R. Wood, Chairman of the Dominion Executive Committee having oversight of the campaign to raise Victory Loan, 7918, said " . . The press publicity campaign . . will rank as one of the most remarkable and efficient publicity campaigns over undertaken in any country," and Mr. J. H. Grundy, Vice-Chairman of the same committee, said: "I have been selling bonds for a long time, but I never found it so easy to sell them as at this time. The reason is the splendid work the press has done .. I take off my hat to the press of Canada."

The success of Victory Loan, 1918, and the knowledge which Canadians now possess of bonds are a straight challenge to the man who doubts the power of the printed word, in the form of advertisements, to sell goods-and this applies not to bonds alone, but to the goods you are interested in selling. "
