THE HARDEST WORK
The hardest work any of us are called on to perform is worry. Nothing exhausts us so quickly. Those who work contentedly and happily, are capable of performing an enormous amount of labor without breaking down, but no construction could stand eight sure a day of worry for more than a few months at a time. It is the element of worry, injected into our work which makes it a crushing burden. It is worry which robs our pleasure of their flavor.
Our hardest work is unprofitable work. For that outlays of energy there is a reward. Whether one digs, plants or writes poems, he gets his pay in money or satisfaction, or both. But the harder we work worrying the less we have to show for it. No work of labor is so unprofitable without compensation.
Our hardest work is unnecessary. We must never get through the daily routine because they must work or starve. If necessity is the mother of invention it is also responsible for most of the work that is done in the world. But no one is obliged to worry. We need never think our choice is never worrying and eating. Worry never put a coal in any man's back or a dollar in his pocket. The hardest work we do is both unnecessary and unprofitable.
John W. H. Houghton, one of Oakville's returned soldiers, died at the Bristol Military Hospital last week.

AMENDMENTS TO THE MOTOR VEHICLES ACT

Important changes were made at last session of the Legislature in the Motor Vehicles Act

Rate of Speed
No motor vehicle shall be driven upon any highway within a city, town, village or police village at a greater rate of speed than twenty miles per hour nor upon any highway outside a city, town, village or police village at a greater rate of speed than twenty-five miles per hour, nor at a street intersection unless where the driver of the vehicle has not a clear view of approaching traffic at a greater rate of speed than ten miles in a city, town, village or police village, or twelve and one-half miles outside a city, town, village or police village, but the council of a city, town, village or police village may by-law set apart any highway at any part thereof on which motor vehicles may be driven at a greater rate of speed for the purpose of such highway or part thereof.

Reckless Driving
Provision is made increasing the penalty for reckless driving, which shall be liable for the first offence to a fine not exceeding \$100, or one month's imprisonment, or both; for the second offence to a fine not exceeding \$100, or one month's imprisonment, or both, and for a third offence to a fine not exceeding \$100.

Noise Muffler
Every motor vehicle shall be equipped with a noise muffler and no contrivance for releasing such muffler shall be attached to the motor vehicle, so that it may be operated from any seat in the vehicle.

Mirror
Every motor vehicle used for commercial purposes shall be equipped with a mirror securely attached to it and placed in such a position as to afford the driver of such motor vehicle while driving or operating the vehicle, a clear view of the roadway in the rear of any vehicle approaching from the rear.

Licensing of Chauffeurs
The rules governing the issuance of licenses to chauffeurs have been modified as indicated in the following re-drafted clauses:
A license shall not be issued to a person who drives a motor vehicle for hire, pay or gain unless he files in a license of the Minister of Public Works and Highways certifying that he is a fit and proper person to so license, having regard to his character, physical fitness, ability to drive, and knowledge of the rules of the road. One of such certificates, together with the applicant's character, shall be furnished by the chief constable of the municipality in which the applicant resides, and one other certificate, touching the applicant's physical fitness, ability to drive, and knowledge of the rules of the road, shall be furnished by a member of the Ontario Motor League appointed by the Minister of Public Works and Highways.

Revised on Conviction of Person Operating Motor Vehicle
By-law may be passed by the council of all municipalities for paying on the conviction of the offender and on the order of the judge or police magistrate before whom the conviction is had, a reward of not less than twenty dollars to any person who purports to be the proprietor or driver of a motor vehicle within the municipality. No person shall hire or let for hire a motor vehicle unless the person by whom such motor vehicle is driven is a person licensed to drive a motor vehicle as required by this Act, or is a person to whom a permit has been issued for the purposes of this Act, or is a person to whom a certificate of competency has been issued by the Minister of Public Works and Highways.

Prohibition as to Buying Where Serial Numbers are Altered
No person shall buy, sell, wreck or otherwise deal with any motor vehicle where the manufacturer's serial number or similar identifying mark has been obliterated or defaced or is not readily recognizable.

Obtaining of Disapproving Negligence
The Act provided: "When loss or damage is sustained by any person by reason of a motor vehicle on a highway, the onus of proof that such loss or damage did not arise through the negligence or improper conduct of the owner or driver of the motor vehicle shall be upon the owner or driver."

THE HARBEST WORK
The hardest work any of us are called on to perform is worry. Nothing exhausts us so quickly. Those who work contentedly and happily, are capable of performing an enormous amount of labor without breaking down, but no construction could stand eight sure a day of worry for more than a few months at a time. It is the element of worry, injected into our work which makes it a crushing burden. It is worry which robs our pleasure of their flavor.

Optimistic Address When Welcomed Back to the Capital
Spirit of Hope is Dominant
Ottawa, May 27.—Frankly recognizing that he has returned to Canada in a disheartening time, Sir Robert, in replying to the civic welcome extended to the Prime Minister and Major-General Morrison, declared himself to be an optimistic and asserted his belief that Canadians would deal with the present emergency of reconstruction with a faithfulness as they had fought the war.

The Prime Minister's assertion was received with much applause, which was called forth by the speech of Major-General Morrison, in closing his remarks by way of final message to the Canadian people, and stating that during four years of war the Canadian Corps had never retreated a step and never lost a single gun.

The hopeful spirit that sustained Canadians during more than four years of war, Sir Robert said, "will not be found wanting in the even more difficult days of peace. If that spirit continues to inspire the people there will be no cause for the slightest alarm. Canada stands in a splendid and hopeful position to face the world. We have great energy and great resources and ours is a great future. If we do not waste our efforts, I believe that among the nations of the world in the past decade, I believe that the men who during the war so splendidly did their part will be a steady and dominating influence for law and order, and that we shall have in Canada such full cooperation, without regard to distinctions of race or creed, as will enable Canada to accomplish that high destiny which is hers by right of heritage."
