What is its history in the past in Ontario, and was it ever known to be as provalent as now? Is it likely, as we are told some other pests have done, to work out its own destruction and annihiliation by over production? Nature, it is said, docu nothing in valu and so this other question arises: Cannot the daudelion with its rapidly increasing monopolization of the soil of our province, if it cannot be checked in its sweeping course, be turned to some useful purpose other and further than its present very limited application to medicinal and templater of these illimitable seas of yellow and white, a thousand fold more prolific and tenacious than the mustard, the Canada thistle or the oxeyed daisy, asks himself: Are our Departments of Agriculture, Federal or Provincial, taking cognizance of the immense and increasing and over-Government as a provincial county powering grasp the dandellen is obtaining on our farms and along our roadsides, and are they taking any means for the stay or the eradication. of this plaguet-T. D. J. Farmer.
