A SYRUPY REFORMATION

By Ros L. Hendrick

HAT COFFEY boy has got to be attended to...

"Well, Miss Kate Derby remarked something, 'I've noticed that most boys do drink sap...'

"That is hard to see, when you look them out under a brush heap all summer and Miss Kate said...

"He's taken to spilling it lately—throwing stones and things—he won't keep away!"

"You're not tactful in dealing with him, Melly. If you'd make a friend of him, he'd help and not hinder you."

"That's all right, but he's thinking hard in spite of his best efforts, however, his thoughts seemed to reform him...

EVERYDAY PEOPLE

One of the best talents in the practical talent. With it no amount of brains can compete. It is rightly not in ordinary use in common-sense. Great mental endowments are often accompanied by such a measure of impracticability as largely to nullify their usefulness.

HIS TEACHER

Two gentlemen met on a steamer and talked with interest of many things. "You tell the truth," said one, "I am not very enthusiastic about this kind of work. I was a teacher for many years, and after all I seemed to have done nothing."

LABOR, CAPITAL AND THE PUBLIC

We really must have some intelligent and systematic study of the chaotic labor troubles that threaten the peace of every land. There are more manual workers in the world than in any other country.

MENDING BAGS

A quick and very easy way to mend bags and one which the men can do as easily as the women. Turn the bag wrong side out, spread on patch, and press with the hot iron.

WHEN YOU MEET A STRANGER

There is a good deal in that first impression. The idea that you are in a fallible is undoubtedly a mistake. But it requires considerable effort to overcome an unfavorable impression.

NOT THE RESULTS OF MATRIMONY

Mrs. Johnson was in search of a maid. She had been in the labor bureau so many times that she had ceased to be particular in her requirements. But even she got a shock at the sight of the applicant.

THE EXPLANATION

Nature placed in the growth-promoting "vitamins" in the oil of the cod-fish—this explains why Scott's Emulsion is so definite in its help to a child of any age.
