Soldiers' Memorial Unveiled Friday at Rockwood

It Honors the Eleven Eramosa Men Who Fell in Action During the War

AN HISTORIC GATHERING

The unveiling of the handsome granite monument to the memory of the men of Eramosa Township, who fell during the war in defence of the empire, at Rockwood last Friday was an event which will have an important place in the annals of local history.

The afternoon was declared a half-holiday, and people from all parts of the township, as well as a large number from many outside points gathered.

In addition to the unveiling of the monument a reception was tendered to those who had returned home, an excellent program of sports was carried out and a number of addresses were delivered. It was without doubt one of the most important days and interesting events ever seen in Rockwood.

The soldiers' monument, which is a very beautiful one, is erected near the centre of the village, the ground on which the monument has been donated by the congregation of St. John's Church, being a corner of the church lot. The unveiling was done by the Bishop of Niagara, who delivered an eloquent and patriotic address.

Previous to the unveiling a parade from Waterside Park of the returned soldiers, about fifty in number, led by the Guelph and Ontario's band, which also supplied music for the service.

Engraved on the tablet are the names of the eleven men from the township of Eramosa who fought and died for King and country, and whose memory will be perpetuated by this memorial. Their names are: John H. Cooker, Thos. Edwards, Jas. Ganshik, Henry Hampson, Robt. J. Murrie, J. Wilford Oakes, Peter Pick, Arnold Phillips, W. Bamman, R. J. Stump, and Gordon Winston.

The monument was erected by the municipality and the cost of it will be borne by all the ratepayers. The Township Council having decided to levy a special tax to cover it. This is the first monument to be unveiled which has been erected by a municipality.

Following the unveiling the parade re-formed and marched to the Agricultural Park, where a programme of sports was carried out, including baseball, soccer, etc., after which luncheon was served and addresses were delivered by Lt.-Col. J. Murrie, Capt. Hindley, Messrs. Adam Wood, Rev. E. F. Kean, M. A. of Acton; Rev. Father Quick, Dr. McCullough and Rev. A. C. Eddy, B. A., H. D., Mr. Wm. Harris was chairman. In the evening a band concert was given in Waterside Park.

HE SOLD HIMSELF

A man stole a spare tire from an automobile standing on the street. The owner promptly reported to the police office, and shortly after the thief walked into a second-hand store to sell his booty to find himself greeted by an officer who was waiting for him.

"We went in to sell the tire and he sold himself," remarked one who was speaking of the clever capture.

Just what every thief, every dealer in wickedness, is doing continually. Some are not caught so quickly, some are charged together and pocket the ill-gotten gains, but sooner or later, even so, they have sold themselves. When Joseph's brethren sold him, they sold themselves. And the officers shame and disgrace took them into custody years afterward.

BUILDS AND BINDS A NATION

Truly national in character is the exhibit of the Canadian National Railway in the Hallway Building at the Canadian National Exhibition, Toronto. The exhibit is most striking, and the whole is a masterpiece of artistic arrangement. The display in general permits of freedom of movement to view the various exhibits in detail.

The frieze decorations show typical landscape views of the nine provinces, with the coat of arms of each the connecting link bearing the highly significant reminder that this is an exhibit of "a line that builds and binds a nation."

Three sides of the octagonal building are occupied by a huge topographical map of the Dominion, on which are shown in brilliant illumination the names of the principal points reached by the Canadian National Railway, the land being indicated by a broad band of red.

No better or more comprehensive plan could have been adopted to designate that 16,000 miles of railway are now under Canadian management; and that the Canadian Northern, the Intercolonial and Transcontinental railways have been amalgamated into one vast system. To further demonstrate the fact that the

system traverses every province of the Dominion and reaches every provincial capital, the observer by an ingenious arrangement of flashing lights, is taken in fancy right across the continent from Halifax to Vancouver and Victoria, stopping momentarily at the principal points enroute and thus is brought back again. The map should prove of much educational value in telling just what the Canadian National Hallways are and the territory they reach.

Beautiful Transparencies

A rustic centrepiece and several rustic lanterns contain some really beautiful photographic transparencies which do not fail to call attention to Canada's innumerable scenic gems, while the hunter's log cabin with its sporting trophies is also utilized for the purpose of displaying views and moving pictures of acorn and sporting and industrial life.

Purestry, pulp and paper, minerals, Indian trophies and agricultural features complete an exhibit on which there has evidently been much careful preparation and considerable forethought. Nor has the royal visit been forgotten, for on top of the pyramid devoted to a beautiful display of British Columbian fruit stands the Prince of Wales' crest, the three feathers worked in grain with the motto, "Dieu et Mon Droit." Altogether it is an exhibit which every visitor should see if he would learn of Canada's national system of transportation.

Publicity Knows No Seasons

Advertising, in spite of all the hard knocks it has received, continues to grow each year. It is essential. It is the power behind the selling organization. Take away the element of advertising and the business world would be stagnant and at a standstill.

And advertising knows no seasons—it just keeps everlastingly at it; by far the most efficient and persistent salesman on the pay roll.

After advertising all through your "regular season" you are losing mighty value publicity by discontinuing your "ad." People have now become accustomed to your store news and the time is coming when they are going to need something exactly in your line.

Your "ad." is a constant reminder—if it appears regularly. The sign above your door is seen only by people who pass your store—an advertisement in THE ACTON FREE PRESS—the paper that goes home, is seen and read by the majority of the people in Acton and vicinity each week. So don't make the mistake of advertising just in your particular "season"—keep your name before the public the year round.
