#### Citizens' Meeting Unanimously Favors

Debentures for \$40,000 for the Cost of Installation to be Voted on

Y-LAW TO BE VOTED ON OCT. 81 In response to the request of the Reeve a well-attended meeting of property owners was held in the Town

fall on Monday evening. that the candidates had at last election the day. pledged themselves to consider the quant'on of a waterworks system for Acton. The Council had employed engineers to look into the matter, seto \$23,000, and much less than most Chairman. The campaign is now getmunicipalities of Acton's size. He ting into full swing and prospects for expressed himself as strongly in favor another record for Halton are enfident that it would not only be of general benefit to Acton, but would in ime be self-sustaining.

Mr. E. M. Proctor, B. A. Bc., reresenting James, Louden and Hertzberg Co., consulting engineers, Toronto presented an interesting and compreand estimates prepared by his firm. Their engineers had visited the available sources of supply including numbers will you please send me those the springs on Walter Lamb's pro- containing the first publications of his perty, the Blue Spring, the Trout articles." Ponds, spring, springs of Mr. B. Johnstone's property, the big spring on the Flynn farm and the spring on the Beardmore farm between the Toronto

Suburban and G. T. R. Unes. Most of the springs were so far away that the expense of piping would be large. After studying the question carefully the engineers decided that the indications are that an adequate supply of water is available from a deep well or weils drilled down to the rock It is suggested that a test well be sunk near the proposed pumping station in the neighborhood of Brock

Cobble Hill is the highest emminence in town and a natural site for a reservoir. It is 100 feet higher than the street at Brock and Main Streets, and 60 feet higher than the G. T. R. track at the railway station. A reservoir elevated 25 feet on Cobble Hill would give satisfactory pressure. The distribution system would consist of 10, 2 and 6 inch mains. Mains necessary are estimated at 17,240 lineal feet. Twenty-five gate valves

tric motors will operate the pumps. and an emergency gasoline or oll friven unit will be installed. The catimated cost for a system with wells is \$72,000, and from Flynn's spring \$13,000 more. -\$18,000 for installation of a system with wells would be raised by debenture, and the balance would be provided by a local improvement system. Concluding his report Mr. Proctor

and 12 hydrants are suggested. Ricc-

said: "If the waterworks system as outlined be installed, we believe Acton will have a splendid plant that will give satisfaction for domestic and industrial consumption and afford ample protection against fire. A good waterworks system is a great smet to a municipality and an inducement to prospective industries and residents from the standpoint of health, sanitstion, fire protection, untility and con-

venience, and in time it becomes revenue producer. Mr. Beardmore endorsed the Roeve with reference to Acton's splendid financial position, and pointed out where the installation of a system of

amusing articles, an art gallery, a waterworks would be of great benefit post office and other new features. to Acton. Lunch will be served every afternoon Dr. Gray declared there was not the slightest reason why Acton cannot afternoon at four o'clock, with the greatest case finance the instaliation of waterworks. We need a system of waterworks and he thought every loyal citizen should be in favor of carrying the question to a success ful issue. From the consideration of the improved status of the town, the better sanitary condition, the assurance of a safe water supply he favored

the matter strongly. others asked questions and commented it, however, and says he'll soon be all Frank Holmes seconded the following rather badly battered. right again. The front of his car was

H. P. Moore said-the splendid meeting of ratepayers showed a keen interest in the question. He moved and resolution: That this meeting of property owners hereby express their appreciation of the practical manner in which the Council has acted to secure reliable and intelligent data respecting the feasibility and estimated out of an adequate system of waterworks for Acton; and further, we recommend that the necessary steps be taken to submit a' by-haw to the nateruyers to raise by connection with the local improvement plan of distribution. This resolution was carried by a

rote unanimous, with the exception of single adverse voter. The Council later met and introluced a by-law to raise \$40,000 and to take a vote on the same by the qualified electors on October 11.
