

DRIVE AND TRAVE

Whatever you are, be brave boys... A ship's crew and a ship's boys... A ship's crew and a ship's boys...

WHAT FACTORS INFLUENCE THE SEED YIELD IN ROOTS?

During the last few years considerable quantities of field root crops... including mangels, turnips and rutabagas...

One of the most important subjects in connection with root seed growing... which have been investigated in the laboratory...

In the third place it is abundantly necessary that the land be in good tilth... and in the fourth place, the seed should be planted in rows...

Sound roots, early planting, and rich soil are the three main factors... which determine the size of the yield...

Let us first forget "Lord, God of Hosts, lead us with us, lead us with us, lead us with us..."

Let us then remember that we are all sinners... and that we are all in need of God's mercy...

Let us then remember that we are all sinners... and that we are all in need of God's mercy...
