Charming! Charming! The New Millinery

THE NEW HATS
Come in both large and small shapes in every conformation and design imaginable. Trimmed with flowers, feathers, ribbons and other novel effects just as prepossessing and just as becoming. Our gathering portrays the new models, with their new embellishments in profuse variety.

THE NEW SUITS
The straight line suit is favored for spring, being on the whole not very different from the styles of the preceding season. The skirts are comparatively narrow, slightly flared on the sides

and measure about one-and-five-eighths yards at the hem. The coats are plain and belted, and parade novel touches in pockets, cuffs, collars and trimmings.

THE NEW COATS
Separate coats promise to be as popular this season as they have been in seasons past. The new models for immediate wear show many fitted tops and smooth shoulders, with set-in sleeves. The garments are inclined to be fitted in, while the skirts flare at the sides, and are adorned with shawl and convertible collars of many unique designs. 46 and 48 inches long.

NEW DRESSES, BLOUSES, SKIRTS, GLOVES, NECKTIES AND FABRICS

We invite you to see these new Spring styles first time you are in Geoph, this week if convenient.
