

LITTLE LONELY ROADS

I do not love the great roads... I love the little lonely ways... I love the autumn of the year...

THE ART OF FLAME-CUTTING

Since the invention of the oxy-acetylene torch by Edmund Fouché, a French engineer, great progress has been made in the art of flame-cutting.

Of course Edmund Fouché's torches were made in the art of flame-cutting... the principle that he used is still employed in cutting metals that the sharp...

THE OLD MAN OF THE BIG CLOCK

Jumping Jimmy Christmas! What a difference there has got to be in Hallowe'en. And I'll be hanged if it isn't a different improvement from when I was a young fellow, and up to three years ago, the young people all got out to see what damage they could do to the old man.

ADVERTISING By Dr. Frank Crane

Advertising is simply making your business known. It is perfectly consistent with anyone's dignity or modesty.

There are several points that it might be well for all advertisers to keep in mind.

1. All advertising should be CLEAR. It ought to state just what your business is and where it is, giving your precise address.

2. Advertising should be reckoned as a PART OF YOUR BUSINESS. It is as necessary as the sign over your door.

3. It should be REGULAR and CONSTANT. People trade with the firm whose name is familiar to them.

4. The newspaper going daily into the hands of the people, is the BEST MEDIUM for advertising.

5. Advertising should be ATTRACTIVE. The most attractive thing you can put in is something that appeals to the self-interest of the reader.

6. BE BRIEF. Don't try to crowd all the reading matter possible into the space you pay for.

7. BE HUMAN. Make your advertisements as live and warm as you can.

8. Tell the TRUTH. When customers come to your store, do a little more for them than you said you would in your announcement.

9. It is the DUTY of all HONEST concern to advertise. That is the best way to crowd out the fakers.

10. Advertising is necessary to ALL FORMS of business which appeals to the public.
