#### When Our Boys Marched Away

Seven yearst ago this week the bugle call to arms for the late war was first heard in our streets. Many cause of King and country and home. And they continued to go until the fee to peace and freedom was popular with all classes. subdued. And many of them-sleep in France and Flanders to-day. "Their name liveth for evermore."

#### Another County With no Bonded Debt

In referring to the fact that the County of Du ferin is free from debenture or bank indebtedness, THE ACTON FREE PRESS SAYS' that this is "a position unique among the counties of Ontario." THE FREE Press ovidently has overlooked the fact that Simcoo County leads in this-as in other respects-this county having completely wiped off its indebtedness over a year ago.-Barrio Examiner.

#### The Guelph Road a Provincial-County Highway

The Reeves of Nelson and Nassagaweya Townships have been notified by the Department of Public July 7. THE ACTON FREE PRESS entered its forty-sev-Highways that the Guelph Line in these townships enth year, for forty-three years of that time under has been designated as a Provincial-County Road by the direction of its present editor, Mr. H. P. Moore. the Hon: F. C. Biggs, Minister of Highways. With THE FREE PRESS is one of our most valued exchanges the Seventh Line of Trafalgar and Esquesing, and the Guelph Road in Nelson and Nassagaweya, running is one of the most highly esteemed of the newspaper north and south, being made Provincial-County Highways, and the Toronto-Sarnia Provincial Highway running through the county from east to west and the Toronto-Hamilton Highway also crossing the that our friend, H. P. Moore, may long be spared to county, the Province is surely dealing generously with be its guiding star."

### The New Law Forbidding Liquor

The Pioneer, which has a broad view of the Pro-Province has, as a whole, adjusted itself to the new time they should? conditions. There have been a few flurries in some localities, and perhaps a disposition on the part of the authorities to deal easily with late shipments, but on the whole there is little reason for complaint." There have been, however, abnormally large stocks secured by the bootleggery fraternity which they will be busy disposing of for some weeks, if not months, and will be some time before things are running smoothly, and full benefits are reaped from the new legislation.

## "All of a Gang Guilty of Deed of One"

. This is the view of Hon. Mr. Doherty, Minister of Justice. As an outcome of queries in regard to the Hotrum-McFadden murder case, for which both men paid the penalty last week, the Minister emphasized the fact that a Government must exercise every care to protect the lives of the people, and quotes the law governing such cases, as follows: "'If several per sons form a common intention to prosecute any unlawful purpose, and to assist each other therein, each of them is a party to every offense committed by any one of them in the prosecution of such common purpose, the commission of which offense was, or ought to have been known to be, a probable consequence of the prosecution of such common purpose." There apparently exists in the public mind in regard to this case a widespread impression that the guilt of each of these men of the crime of murder depended upon whother or not he had fired the fatal shot. This impression is entirely erroneous."

## Peace Restored After Centuries of III Will The tercentenary celebration at Penetanguishene

last week had a dramatic climax when the Indian Chiefs of the Hurons and the Iroqueis, "smoked the pipe of peace," after an enmity which had existed between their tribes in Canada for two and threequarter centuries. With all the pomp and solemnity of past history thus there came to an end one of the bitterest feuds that over raged on the North American continent, a foud that was raging when the first white man set foot on these shores, and whose echoes were heard in the council halls of the Old World Last Wednesday morning the present tribal head of the remnant of that once powerful Huron nation returned to the domain of his ancestors to puff the pipe of peace with the present chief of the Iroquels nation that was once the terror of the whole of the eastern-portion-of-the-continent. Together the two buried the hatchet, a sign that the past had been forgotten, and that peace had at last been established between the two peoples. Surely this was in all respects a Christian as well as an historical act.

## The Council Members' Honorarium

Commenting upon the recent action of our Council in voting themselves remuneration for their services for the year, the Beaverton Express says: The payment of the Village Councillors has been a live topic of consideration up in Acton for some time, according to the FREE PRESS, and it has been settled, however, by the Council voting themselves each the sum of \$50 while the Reeve is to receive \$100. This appears to us to be the proper thing. Why should any community, be it village, town or city, expect the services of capable men for nothing. They could not secure the work of the veriest "Dub" for the smallest job without pay, yet men capable of handling thousands of dollars and directing works involving many level, as they are bound to do eventually, there is thousands are expected to give their time for nothing. Unfortunately this is not all it involves-too often ada has never before experienced will follow. The the service is rewarded by the most exasperating in- scarcity of dwelling houses in cities, towns and vilgratitude and abuse.
