BEAUTIFYING THE RAILWAYS

The Station Garden at Milton, Ontario. The Fountain in the Station Garden at McAdam, N. B. The Station and Office at Woodstock, N. B.

At the present time of the year when the snow covers the ground one decidedly misses the station and section gardens along the Canadian Pacific Railway with their profusion of shrubbery and flowers of every color.

It is the policy of the Canadian Pacific Railway to establish permanent gardens and the C. P. R. Floral Committee gives every possible maintenance in carrying on this work.

In carrying out this work a great number of trees, shrubs and perennial plants are used annually. Suitable trees such as ash, elm, maple and poplar are supplied and shrubbery such as honeysuckle, lilac, hollyhock, yucca, geranium, etc., to furnish color in the winter.

Gradually, however, this class of plants is being replaced by perennial stock which requires less manual work and copes up from year to year living through the severest winters. In the
