GRAMMAR IN RHYME

Three little words you often hear,
Are articles, *a*, *an* and *the*.
A man is the name of anything
At school, or garden, home or swing.

Adjectives tell the kind of noun,
As great, small; pretty, white or brown.
Instead of nouns the pronouns stand—
His head, her face, your arms, my hand.

Verbs tell something to be done—
To read, count, laugh, sing, jump or run.

How things are done, the adverbs tell,
As slowly, quickly, ill or well.

Conjunctions join the words together,
As man and woman, wind or weather.

The preposition stands before
The noun, as in or through the door.

The interjection shows surprise—
Ah, how pretty! Ah, how well!

The whole are called nine parts of
Speech, reading, writing, speaking, touch.

TWENTY-YEARS AGO

From the issue of the Free Press of
Thursday, June 16, 1902

The weather has been nothing as it had been that we were threatened with an ice famine.

Mr. J. E. Corry's fine terra cotta brick residence at the corner of Young and Main Streets is offered for sale.

If the weather would be more agreeable to get him away, another straight big effort will be attempted.

The final draft of the statutes of ministers at the Methodist Conference, placed Rev. A. E. Smith, B.D., at Acton. Rev. J. M. Hugar goes to Port Hope.

The success predicted in the matter of securing funds for a new and larger staff for the Public School has been realized. Misses Allen, Howes, Currie, who were appointed on behalf of the leading business men of the town, have now secured \$1,000 in subscriptions. They made their call during the week and at a meeting on Monday evening handed in \$44.16. Lighting Bills were the subject of a 21 foot flag pole, the purchase of a 21 foot flag and fixtures, and securing masts and bunting for decorating the front entrance on Coronation Day.

At the meeting of the Municipal Council on Monday evening the introduction of the metro system in connection with the Municipal Electric Lighting Plant was the subject of a lengthy discussion. It was decided that the metro system was the best in every respect to the municipality and failed to all other systems.

Permanent members are now considering definite considerations. Publications in circulation for pavements on Main Street, Bower Avenue, Fredrick Street, Elgin and John Streets and others are contemplated.

DIEF.
McGILL.—At his home, at the Dominion Kitchens, Gaetzburg, on Thursday, June 12, 1902, Neil McGill, aged 75 years.

MEDICAL OPINIONS ON ALCOHOL

"Resolved: That whereas it is the unanimous opinion of the Council of Health and Public Instruction of this Association that alcohol has no drug value whatever—

"—and as a therapeutic agent, and that it has no food value;

"And whereas it is a beverage or a medicinal agent is detrimental rather than beneficial to the individual, therefore be it resolved that the house of delegates at its sixty-eighth annual session, declares itself opposed to the use of alcohol by individuals either as a medicine or as a beverage."—American Medical Association.

Dr. Victor Horsey, in his address to the British Medical Association at Montreal, said: "No one who has closely investigated the history of alcohol of recent years prescribes it now. Everyone will feel relief when it is in medicine is abolished."

The history of alcohol in hospitals is illuminating. During the past it was the custom to purchase for the patients, spirits by the barrel and milk by the quart. Now it is reversed, and now milk is purchased by the ton and spirits by the pint."

Dr. G. Mayo, of Rochester, Minnesota, said: "Alcohol has reached a period when it is really being used as a drug, being dispensed by physicians. Alcohol's only place now is in the arts and sciences and for practical experiments."

Col. L. Melvin, Medical Corps, U. S. Army, said: "After a careful study of alcohol as a beverage and as a medicine, I have been unable to discover one single medicinal use or purpose it has in the human economy. Alcohol diminishes the efficiency of the heart and muscle—this discovery is in science, ought to banish it from the medical profession."

Dr. W. A. Bustelo, Professor Columbia University, said: "Alcohol cannot properly clean among the foods because its property of yielding energy is not its dominant property. Indeed, its food value is overshadowed by other important actions, namely—the local irritant action, the pain-killing and the destructive action upon the body. The aches, the narcotic action and the ease with which it lends itself to the formation of a vicious habit."

A safe and sure molluscent for a child troubled with worms is Mother Graves' Worm Exterminator.

A DURABLE WHITEWASH

Make a thin paste of fifty pounds of hydrated lime in boiling water, or one-half bushel of quicklime may be slackened in a vessel with a quantity of water, keeping the vessel well covered and stirring occasionally. To this is added one peck of common salt, which makes a good whitewash. Three pounds of vine flour, lighter to this paste, which should be stirred in while hot; one-half pound of Spanish whitewash and one pound of common glue, thoroughly dissolved in boiling water. This formula is particularly suitable for interior work. Mix well in the order mentioned above and allow the mixture to stand for twenty-four hours. It is applied. It should be painted on with a brush or spray as hot as it is possible to handle the mixture.

SMART BOY

"I'm a boy," exclaimed the central little man, as he rushed up to a page in a big hotel. "Run up to my room and see if my umbrella is there. Hurry now, because I've just got five minutes." The three minutes later the boy came tripping down the stairs.

"Yes, sir," he said, "it's there all right."

After 10 Years of Asthma Dr. J. D. Kellogg's Asthma remedy proved the only relief for one grateful user, and this but one case among many. Little wonder that it has now become the one and only remedy for the most part. It has earned its fame by its never failing effectiveness. It is earning it to-day, yet has done for years. It is the greatest asthma specific with in the ranks of suffering humanity.

THE SUNDAY SCHOOL LESSON

FOR SUNDAY, JUNE 18, 1922

THE DOWNFALL OF JUDAH

Kings 25: 1-32.

Historical Setting

Time: 6th C. B.C.

Place: Jerusalem

Topic: Conquest

Verse 1.—Zedekiah's treacherous reign was coming to its finish. He had been under tribute to the king of Babylon, and had made some feeble efforts to throw off the yoke. That which Jeremiah had foretold "was about to come."

Verse 2.—Seventeen months was a long time for such a foolish king.

Leaman and Kekel, both give us glimpse of the horrors of the situation.

Verse 3.—Realizing the hopelessness of the situation, the former defectors were ready to embrace this opportunity of attacking him.

Verse 4.—The code of warfare demanded the taking of the king as a just of victory. Separated from his army, he was an easy prey to the enemy.

Verse 5.—While we shudder at the thought of this cruelty, we realize that war has never ceased to be cruel since the days of the king.

Verse 6.—The soldiers prepared to carry out their plan.

Verse 7.—This terrible scene could hardly be imagined. Leaman and Kekel, both give us glimpse of the horrors of the situation.

Verse 8.—This terrible scene could hardly be imagined. Leaman and Kekel, both give us glimpse of the horrors of the situation.

Verse 9.—The soldiers prepared to carry out their plan.

Verse 10.—The destruction of the wall was the last touch to render Jerusalem non-existent. What was once a city became a heap of ruins.

Verse 11.—With the walls open country, the besiegers had joined forces with the king of Babylon and all others whose presence in Babylon could be considered.

Verse 12.—The soldiers had little use for a deserted land. They planned to have it return to them the products of field and vineyard.

Illustrated Truth

Delayed consequences of sin may deceive the casual observer into believing that the law of sowing and reaping is not true (Golden Text).

Illustrated—Some sins, though seemingly regulations were much less strict than they are now, a few mild protests were registered against the practice of the king, but later he had to those, and, in course of time, the land was filled in and was laid off in lots. Not attention went up, but the owners had soon enough to learn when maladies that had not been known in the country for years broke out. The decision of experts who were called to examine the gormet that had been covered up for so long had been brought to the surface and had become active.

Topics for Research and Discussion

1. Kings 25: 1-32 (vv. 1-3). What relations had been existing between Judah and Babylon? Why was it necessary for the king to bring his people to Babylon?

2. The Bitter End (vv. 4-12). What prophecy was thus fulfilled?

3. How was the destruction of the city accomplished?

4. What do we know of conditions inside of the city?

5. Flight and Capture (vv. 4-5). Why did the king and his soldiers try to escape? Where was the king overtaken? Why was he not defended by his men?

6. The Bitter End (vv. 6-12). What prophecy was thus fulfilled?

7. How was the destruction of the city accomplished?

8. What prophecy was thus fulfilled?

9. How was the destruction of the city accomplished?

10. What was the punishment?

11. Who were taken away?

12. Why were any of the inhabitants left?

Daily Readings for Next Week

Monday, June 19.—A Good King (3 Chron. 14: 1-8).

Tuesday, June 20.—Giving and Working for God's House (3 Kings 13: 8-14).

Wednesday, June 21.—Pride and Punishment (3 Chron. 36: 11-31).

Thursday, June 22.—God's Call to Justice (3 Kings 14: 1-12).

Friday, June 23.—A Call to Worship (3 Chron. 30: 1-12).

Saturday, June 24.—The King Was Destroyed (God's Word (Ser. 28: 20).

Sunday, June 25.—The Downfall of Judah (2 Kings 25: 1-19).

CLEAN UP YOUR TOWN

A town looks like its citizens. Are there anything wrong with your town?

Are the back lots filled with unsightly trash?

Are the lawns of public buildings covered with rubbish?

Is there rubbish obstructing exits that people may have to use in an emergency?

If any of these conditions exist, there is something the matter with your town.

Your tongue was coated, your backache, and you had chills; you would go to a doctor. You would go because you were sick.

Your town is sick. It gets clogged up like your system, and is coming to a standstill. It was in this way that the destructive action upon the body of Jesus, the narcotic action and the base with which it lends itself to the formation of a vicious habit."

ATTENTION!

WHAT IS A LADY?

A boy of less than a dozen years was asked to tell what a lady was, and he said: "A lady is a woman who makes you feel as if you would like to kiss her."

That is a boy's recognition of what ishood and blood in girlhood and womanhood. A scholarly writer makes the following statement concerning the difference between a boy and a man:

"It is a boy's recognition of what ishood and blood in girlhood and womanhood. A scholarly writer makes the following statement concerning the difference between a boy and a man:
