The weather has been very favorable for strawberries, however, and last week on the murket here, and great quantitlus of them, Vine fruit is still to be had, but this week will probably see the end of the crop. The prices have been very reasonable. _

An Advantage in Examinations (luneral averages are done away with under the Department Examinations for High Behool students. In former years students were required to make no less than 40% on any paper and a general average of 60% on all. This year's pupils are required to make 50% or more on all papers and no attention is given to the general average. Those who puss in any subject are finished with that subject. Supplementary examinations are possible on subjects on which they fall.
