Sane and Sensible Advice

The sooner the labor organizations demand separation from the radical extremists the better, for all concerned. The discovery that their policy is always one of destruction of property isn't going to make them popular with the general public nor useful the labor unions. The confessions of responsibility for rail wrecks that cost lives is going to make the unions come to a decision to get rid of the responsibility for their actions,-Guelph Mercury.

The Daily Papers' Chestnut

Country editors can afford to be indifferent to the coal strike and the consequent shortage of fuel. The aubscribers get another opportunity to pay their subscriptions with a load of wood, and at the prevailing prices one cord will keep them in reading matter for the next ten years .- Guelph Mercury. Isn't it about time such papers were letting up on this chestnut? Most of the country papers we know of gave up the go-as-you-please method of payments of subscriptions in cash or kind years before the Mercury abandoned that antiquated method.

Bonuses Growing Unpopular with Ratepayers

The offering of bonuses and loans to induce industrial concerns to establish factories or extensions to existing businesses in the towns and smaller cities of Ontario is evidently growing unpopular. It is certainly being looked upon with disfavor by numbers of places which have had experience in this method with loans, bonuses and exemptions which have failed dollars of American, money sold there at 991/20. to fulfil their pledges as to output or employment of work, people, while others have failed in business majority of 69, every ward giving a majority against | twenty per cent. advance was announced last week. it. British Women Prefer Husbands to Pensions

-In England the widows of soldiers killed during the war are reducing the financial liability of the nution in a most substantial manner. 'Agnes McPhall's Queries Answered

"Where are the beautiful farm buildings we used to see in the old days? They are going to pieces," explained Agnes McPhail, M. P., at a farmers' pic-nic abundant opportunity to demonstrate pearance of the first bubbles he solved in Western Ontario the other day. If Agnes can't where you belong. And Halton county has many of the finest to be seen anywhere. If Agnes will visit the farm home of President Wrigglesworth, of the U. F. O., on the seventh line, she'll see beautiful farm buildings, and Norman will show her dozens of others in his immediate neighborhood.

Strikers' Lack of Concern for Others An evidence of the careless lack of concern for the comfort or safety of others, when a labor strike is engaged in, was manifested when the recent railway strike in the United States was entered upon. Train crows abandoned their trains in the middle of the Arizona descrt. The suffering they caused their passengers, many of whom were feeble through age, or infuncy or sickness, was positively cruel It was of no conceivable advantage to the strikers and showed only a wanton willingness to harm any one who was in their power. The strikers damaged their own cause just as the Germans who made war on non-combatants in Belgium and France damaged David Withers to the Mortgages, and theirs. -

Canada's Crops will give Encouraging Results

Taken as a whole the crops throughout Dominion this autumn are superior to any which have been garnered in a number of years. News from Western Canada to the effect that the farm crops the County of Italion, in the Province are of such proportions that the country will be put in a position to largely liquidate its current liabilities, is a decidedly encouraging circumstance to all sections of Canada.
