In order that the department responsible for the administrating of the hog grading regulations should have a voice in the work and be directly in touch with all the factors connected with the buying and solling of hogs, a representative of the Dominion Live Hitock Brunch was included on the committee.

It will be noted that the resolution calls for only one representative from the producers. However, upon more muture consideration it was decided that there should be three representstives of the broducers, one representative each for Western and Eastern Canada and a French-speaking ,representative for Quebec. The three producers' representatives on the committee have been appointed through co-operation with the provincial governments by the Western und Eastern Canada Live Stock Unions and by the Provincial Swine Breeders Association for Quebec.
