THE SUNDAY SCHOOL LESSON

FOR SUNDAY, DECEMBER 31

THE BIRTH OF JESUS—Luke 2: 1-20.

Golden Text.—"There is born to you this day in the city of David a Saviour who is Christ the Lord."—Luke 2: 11.

Leading Truths 3

Lesson I.—In the fullness of time, the promises made through the prophets were fulfilled in the birth of John the Baptist.

Lesson II.—Jesus walked all the ways of human life, from infancy to manhood, subject to the law of humanity.

Lesson III.—John prepared the way for the Christ. All of our preaching and teaching cannot prepare the way for Jesus only Jesus from the first.

Lesson IV.—Conversion becomes voluntary to those whose lives are bound to the Son of God.

Lesson V.—The truest patriot is the one who loves his country and brings about the reign of righteousness.

Lesson VI.—The first and best aid that can be rendered to that of lifting up the fallen.

Lesson VII.—We can never turn the eyes of living well with following by living close to Christ.

Lesson VIII.—In our work we are ourselfs who go wrong.

Lesson IX.—The most Christlike work is that of restoring men from their sins.

Lesson X.—Every cause of need is a call for Christian nobility.

Lesson XI.—We must array ourselves among either the foes or the friends of Christ.

Lesson XII.—Our life is in the hands of God.

Daily Readings for Next Week

Monday, January 1.—A Woman Routed on the Sabbath—Luke 13: 10-17.

Tuesday, January 2.—A Man Healed on the Sabbath—Matt. 12: 9-13.

Wednesday, January 3.—A Christian Eyes Opened on the Sabbath—John 9: 1-14.

Thursday, January 4.—The Sabbath for Redemption—Exodus 23: 10-13.

Friday, January 5.—The Sabbath a "Typical Holiday" 4-11.

Saturday, January 6.—Praise Our Helper—Psalm 103: 1-8.

HAPPY NEW YEAR

"Happy New Year!"—A suspended little boy, as he plucked his basket of laundry from the sidewalk and looked up into the cheery face of the elderly lady who had greeted her and received a pleasant smile.

"Happy New Year!" she said, a minute later, as Tim Graham ran by her.

"Hum," responded Tim, stopping quickly and turning around to say, "What's it?"

"They're not art, Tim," said Mary Ann; "they're just things to pass along."

Tim came out this morning, mother said, "and when he saw the number you're out, just pass it along." I got real pleasant "Happy New Year" from the white-haired lady just now.

"I'm passing it along to you, too," he said.

"Tim, you've only meant to put it in the kitchen stove, but if there is any shortage we will not find it necessary to burn the furniture or tear up the floorboards to get at it," said Mrs. May.

We went through a winter like the war without the coal stove, and can do it again. Of course coal is harder to find, and more expensive, but if the coal dealers are reasonable their employees will quarrel it doesn't mean so much to us as it does to city people.

The woodlot is a kind of insurance for the winter, though it is not much.

A shortage of coal for fuel will stimulate reforestation in the country, for many farmers already realize that it is safe to plant trees.

It is also a good idea to encourage the development of electricity for the transportation companies, and all users of power see the danger of being cut off completely.

These things are still well to conserve the world's coal supply, which is in danger of being used too rapidly in our present enterprises. But that we can use the coal more efficiently and if the coal dealers are reasonable their employees will quarrel it doesn't mean so much to us as it does to city people.

The woodlot is a kind of insurance for the winter, though it is not much.
