#### EVEN GYPSIES CHANGING

To defend her ruce from the charge that they are "ugly, dirty, half idiotic," Fenella Smith, a gypsy princess, has written the first genuine Romany letter to appear in the English newspapers. She is a gifted woman, deeply versed in Borrow gypay lore, and claiming descent from the Petulangro family, mentioned in Borrow's books, which to gypalos is what Norman blood is to the aristocratic English families. "Princess" Smith contends that real gypsies are handsome. clean, as clover as their critics, and gives evidence that the mysterious varabond 'race is changing its traditional habits under the influence of the modern thirst for knowledge. Nowadays in sypsy camps here, her letter continues, it is not unusual to find the mother squatting beside her caravan, teaching the swarthy brood of children to read and write.

# Is Your Corn Crop Infested?

The European Corn Borer leaves no question of doubt as to its presence in a field of corn. Guard carefully

## against the infestation of your crop. Beware of These Signs

The first easily observed sign of the infestation is the breaking over of the corn tassels.

Later the feeding of the

"worms" begins to show

on the stalks, which, being greatly weakened, break Finally the cobs and

shanks become infested and the entire stalk collapses to the ground.

The horer then seals itself for the winter in corn stubble or corn stalks, which must either be burnt up or ploughed under before June 1st of the year following.

# Failure To Advertise Resulted in Collapse

Day & Martin, the famous English manufacturers of shoe blacking, who have been in operation one hundred and fifty years, are being sold out.

The manager explains that up to 1912 the firm held the leadership in this trade through advertising. Its failure to advertise since resulted in collapse. The firm that quits advertising soon learns that the public has a very short memory.
