CLEANING LONDON

Spring cleaning is a gigantic task for a city like London, England. Daily 5,000 tons of rubbish are collected by 1.220 vehicles, at a cost of ten cents hundred weight. Cleaning Victoria Station takes six months and fortyfive tone of paint (thirty-four white lead, eleven linseed oil at \$200 a ton). ever undertaken was the dusting and a good deal of control.- Much thinkrenovating of the British Museum Library. Two hundred and fifty men were kept busy for fourteen months. Redecorating the dome and walls of the great reading-room took 250,000 leaves of beaten gold. Another big renovating job carried out periodically is, spring-cleaning Tower Bridge. Twenty tons of paint are used in the process, which occupies roughly by months. Reter the Talketive -On the Moun of Transfiguration Peter, as usual comes first to speech with a suggestion which seems to some as the utterance of fear, namely, that they build three tabernacies, one for Christ one for Moses, and one for Elias. It would rather seem, though, as if l'eter spoke in his great excitement out of the unconscious logic which might have been back of the utterance of almost any man under the circumstances. A good many reasons might have been advanced for Peter's advice. But Peter's reasoning was apt to have flaws in it. He draw a wrong cona mountain. Other men might be weak, but not he; others might be cowardly, but he never; and yet, when he soldiers came Peter forsook his Master and fled, the same as the rest. There are many allowances to be made for Peter. . He was surprised and disappointed in his Master. Jesus had not done the thing that he confidently expected Him to do when arrested, and it looked as if all were lost. He had not been so very long in the school of Christ, and he had not the Christian centuries behind his faith as we have
