Police Court News

A Bill and a Quantity of Liquor
Discovered by Chief Jackson at Georgetown Man's House

Armed with a search warrant, following rumors that liquor was being disposed of at the home of George Powell, Chief Jackson, accompanied by Provincial Constables Atkins and Connors, last Wednesday, discovered a quantity of gin and whiskey. Part of a still, a worm and other apparatus for the manufacture of spirits were also found on Powell's place.

Powell was arrested and brought before Police Magistrate Moore at 10 o'clock that evening. He pleaded guilty to unlawful purchase of the liquor and was fined \$100 and costs.

When the court adjourned Powell stated that he had purchased the liquor from two men in a "closed car" who came to his house from the direction of Toronto. One of the men was a Jew, the other he thought was a Canadian, but he did not know their names. He had paid them \$500 for a case of gin, and \$250 for a case of whiskey.

Respecting the still which was found, Powell disclaimed possession. The officers, however, having the names of the men who sold the still to Powell, the hearing of this charge was adjourned until Thursday afternoon to permit the attendance of a Don'ton Excise Officer. In the meantime Powell was released on bail of \$1000.

The second charge against George Powell, of Georgetown, who was fined on Wednesday evening for unlawful purchase of liquor, came up for hearing at the town hall on Saturday afternoon. The still and worm, which were in his possession when the officers searched the house, were produced. Powell swore that these articles had been in his house for about two years. They belonged to a brother he had named Gus Hapshaw. He left the apparatus there and had never come back for it. The Inland Revenue Act says very distinctly that any one in possession of a still, without a license, is liable to a penalty of \$2000.

Powell knew the apparatus in his house was a still, but neglected to notify the other officers of its presence there. He told a very straightforward story respecting the matter, and his explanation, Mr. J. M. Whittier, superintendent of the Excise Paper Mills, testified as to his exemplary conduct while employed in the mill the past six or seven years. The Magistrate took the view that while the Inland Revenue Act had been undeniably violated, and a conviction and fine must necessarily be imposed, he would recommend to the Department of Justice that the man should be given the benefit of the doubt.

Mr. Whittier, who was very fully represented at the court by Crown Attorney Dick, concurred in the recommendation, and the public prosecutor stated that the public must understand the value of the apparatus for the manufacture of spirits must not be in possession of people anywhere. A fine of \$200, the minimum penalty, was therefore imposed.

Every section of the county was represented at the Conservative meeting, at which congratulations were extended to Mr. G. H. Hillman, M. P. A resolution was passed to support the vote of confidence in Hillman, and a resolution to hold the annual meeting of the association in August.
