The Liabilities of Municipalities

The liability of Municipal Councils for keeping streets and highways in safe condition has again been proven. Judgment has been given for \$200.15 for the plaintiff in the case of Charles Neilson v. the ECity of Stratford and the rence Comm was heard some time ago. The counter claim of the city was disallowed and no costs given in the counter claim. Full costs were granted in the original case. The action arose out of the accident last fall at the former of Water and Waterloo Streets. Mr. Neilson's car was damaged.

To Foster a Canadian National Spirit

The information has come that another organ ization has been added to the lengthy list of societies. This new candidate for popular favor comes with the federal incorporation of the Canadian Daughters League, with headquarters at Vancouver, B. C. The sims of the League are set out to be the providing of a non-partizan, non-sectarian influence in th administration of affairs in Canada; the fostering of a distinctly Canadian national spirit and the develop ment of Canadian institutions, literature, art and music.

Acton deserves its prosperity and its port ambition is to become a town. The necessary population is there and it is only a matter of dermalities. The Chairman of the Park Committee will earn the appreciation of citizens generally if he will forbid the further dumptog of refuse in the park, and further, if he will, after investigation, recommend to the Council a suitable place for the deposit of all refuse hereafter.

Commencing and Finishing Things

There are a great many people in the world who have splendid ideas about commencing a certain piece of work, or of launching upon some laudable enterprise or undertaking, who lack the stick-to-it-Toness to finish what they have begun. A come \$251,000 for personal services. paratively small thing, carried through to definite schlevement, is worth more than a really important undestaking, taken up and dropped after a little And the reason is that nothing is so dangerous as to they have nothing to show for it all. Perpetual Care at Fairview Cemetery

The desirability of the re-organization of the ad-

ministration of Fairview Gemetery under the perpetual care system has been repeatedly emphasized in these columns. During the Jubilce Celebration scores of former residents, who have plots or are interested in the old home; cemetery, visited this interesting place. They commented very freely upon the general beauty of the place, but expressed regret that so many of the plots of non-residents were uncared for. . The need for general and perpetual care was spoken of by many, and some offered to contribute to a perpetual care fund if the Council these astonishing qualities, but it is with our town and the flourishing would make provision for adequate-and constant care by efficient gardeners or caretakers.
