RIDDLEB

Why is a parcel that has been undone and tied up again like a wellknown historical event? Because it is recorded.

What is the difference between phin and a cook? Onb makes a din, nakos a dinner.

Why does a dressmaker never lose her hooker Because she has un oye

What is the difference between robin and an axe? One chirps and the other chops,

Why is your school teacher like th letter C7 Bocquee she forms lasses into classes

Which is the coldest river?

What country appeals most to hungry man? .Turkey.

Which bird est weights? The crane.

COSTLY SLIGHT OF HAND

A farmer was taking his son, aged ten, to town. While in the train he him a few tricks Snatching his son's hat from his

head he pretended to throw it out the window, at the same time, unknown to the boy, hiding it under his arm. "Now" said the father, "watch daddy whistle your hat back." . To the autonishment of the boy

hat' re-appeared. Before the train reached its destination the little boy jumped up auddenly, anatched his father's hat from his head, and, throwing it out of the window, said triumphantly,

AN' INTERDENOMINATIONAL UNDERSTANDING

"Whistle that back, daddy."

The Christian Advocate given tical charity: "Dr. Grenfell. amputating the leg of a Roman Catholle, wrote an appeal for a wooden leg to enable the man to move himself about. This was published by The Congregationalist, and read by a Baptist woman, whose husband, a Methodist, who had, worn a wooden leg, had inst died. Instead of burying the leg with the rest of the corpse she shipped it to Dr. Grenfell. So the Methodist leg given by a Baptist woman answer to a Congregational appeal in behalf of a Roman Catholic is now being used as a perfectory satisfactory tainties of life in the city, have much interdenominational understanding." Presbyterian Witness.

AN ODD ENGINE

presented an odd appearance at French auto show recently and was the subject of much comment. The engine is of 40-horse power and has six fitted, two of them supply independent children. There is always room in the e cylinders at low speed, or "loading ge," as it is called. Thus, if a motor has an engine with six cylinders, ware divided into two groups of and one curburetor feeds each when high speed is dowlred, or heavy power is needed, as mbing. . The third curburetor

The Linger of Love

In the land of bliss. And the heart strings moun, 'For the soul you miss, ' There's a linger of love, As you start to roam, And the finger of hope-

Points the way back home. When you slow down speed, On the long, long trail, And the mile posts read

On the road to fall, There's a linger of love, That you can't ignore.

Points the way once more, When the last day comes, And the fire burns low, And you look to God-

For the call to go, -There's a linger of love,

An you end your strife, And the finger of hope-Points the way to "Life."

I forgot to say in my answer to the juery of a reader of these columns respecting the origin and meaning he name of our town last wook, that Acton was never rightfully designated "Acton West." It was never so named by its founders; was never so listed n the Post Office Department of Canada, and letters so addressed are confusing to the postal authorities. For a few years the Grand Trunk Railway had a sign on the old station which read "Acton West." This was for its own convenience in shipping, attempted to amuse the lad by showing because it has a small station named Acton Valo in Quebec. But "Acton West" was long ugo discarded by the railway, and the sign on the new station has always read "Acton." Some people still unwittingly persist starving." in addressing their letters "Acton West." There is no such post office and the Government postal guide takes

the trouble to note in its lists, "Acton West is not a post office." It rather grutes on some of residents, who have always been proud of our town, its suphonious name, and take your family to the circus?" its origin, to have people misname the dear old place.

THE YOUNG MAN'S ASPIRATIONS I have been feeling roal good all week because the "Young Fellow on the Bank Steps" has begun to think of the guidance of youth, first published following example of the disappear- his future and manifests a desire to in 1713, which ran through 50 editions better the prospects for his career. I in the course of the Eighteenth Congave him a little old-fashioned advice, tury. "For the sake of cleanliness it and I am going to presume to add a is well to rub the face every morning little more this week, which I hope he with a white towel in order to remove will take in good spirit.

> like that, which discourage boys and engenders pullor." girls, and have the effect often of sending them away from the salutary influences of home life, to the uncerto mawer for. 'Is it true that there's no chance for boys and girls at hone? Think a moment. Look around you and consider. Numbers of the most successful people in Acton, in business. in professional life, in their interest in moral uplift of this community, in proper supervision of the rising genyoung people who will apply them-

selves. What seem to be hindrances and limitations are often found to be real stepping stones to future, success and usefulness. And success is too often measured by the dollars und cents accummulated-a most erroncous standard.

Any one of a thousand obstacles will block the way to a puny purpose; but not all of them can stand before a purpose into which a true young man or young woman puts true self and determination. In fact, obstacles which real men meet, are generally a help. Hindrances, or what seem to be "limited opportunities," help us to see our task more clearly, to estimate our resources more accurately, to concentrate our powers more completely, and to renew our purposes more thoroughly. It takes some breath of which to fil sails and to fly kites. The finest thing in life is to see a young man

meeting and mastering great difficul-

ties, with the power of resistless And let me whisper to the "Young Fellow" right here. When he beging to realize what there really is in life, and gots a vision of how greater success may be accomplished, he won't spend much time sitting on the bank steps gazing up at the face of the clock in the big tower across the way. He'll be daying foundations for eneuring the success he hopes to ashieve, by the rouding of helpful books, and the study work of elementary problems in mathehan matics, the facts of historical events, for the principles of grammar as applied to a common-sense use of the English ly: language. He won't have a minute for loading on those cold cement steps at the bank. He'll be studying, how he

Getting down to dollars and cents in dealing with advertising in the weekly

newspapers, "Hardware and Metal" says:

"It means that from three to five families can be solicited for a single brown cent; and at a five-cent piece for the solicitation of from 15 to 25 families. What cheaper solicitation is possible or desired?

"Many a hardware dealer spent a dollar weekly to solicit the favor of some young lady in whose affections he would have a high place. He has spent a dollar. or more weekly---perhaps a longer period --- to have the favor of a single individual; yet has balked at spending an equal sum .to solicit the favor of 1,000 or more families whose business would quickly return to him the cost of solicitation.

"One wonders why so many men in" the retail business neglect the solicitation of 1,000 or 2,000 families by the agency of local newspaper advertising."
