CANADA FACES COMPETITION, IN DAIRY PRODUCTS

The Dominion Dairy Commissioner, Mr. J. A. Ruddick, who visited Now Zoaland and Australia recently, in the the Interests of Canadian dairythg, has published his observations in 'Hulletin No. 34 of the Dominion Department of Zealand and Australia." Those counjoyed by Canada in the manufacture and sale of dairy products. These udvantages are: Orester experience in breeding and

handling dairy cattle A more profitable use of the by-products of the dairy, such us skim-milk

Lower-cost of manufacturing butter and cheese.

Nearness to market and lower cos of marketing.

The existence of what is probably the best competitive primary dairy market in the world at Montreal. A well-established and economical export business.

Excellent dairy schools, and systems of field instructions. That we may make the most of these

advantages, and regain and retain our export business in dairy products with Great Britain, Mr. Ruddick says that you. attention must be given to half dozen points, which summarized are: A keener appreciation of the supreme importance of quality. A new spirit must be aroused to

meet the change of altuation that has taken place in the last two or three the city. Universal grading, more frequent de- | well, it was not until after the Christ-

liveries of cream for butter-making mas holidays that Jane became dis-Re-organization of the factory end

for competent choose and buttermak-

The fullest co-operation between all the elements that make up the dairy industry in Canada. The unfair and demoralizing practice of holding cheese and buttermakers. financially responsible for "cuts" in the sale price of butter and cheese on account of defects in quality must

be dropped as quickly as possible. The bulletin contains a great deal of information of much interest and value to those engaged in dairying, including the methods of manufacturing and the laws that prevail in New Zealand and Australia. Copies may be had on application to the Publications Branch, Department of Agriculture, Ottawa.

# Advertising Costs Low

Getting down to dollars and cents in dealing with advertising in the weekly newspapers, "Hardware and Metal" says:

"It means that from three to five families can be solicited for a single brown cent; and at a five-cent piece for the solicitation of from 15 to 25 families. What cheaper solicitation is possible or desired?

"Many a hardware dealer spent a dollar weekly to solicit the favor of some young lady in whose affections he would. have a high place. He has spent a dollar or more weekly---perhaps a longer period --- to have the favor of a single individual; yet has balked at spending an equal sum to solicit the favor of 1,000 or more families whose business would quickly return to him the cost of solicitation.

"One wonders why so many men in the retail business neglect the solicitation of 1,000 or 2,000 families by the agency of local newspaper advertising."

Can You Afford Not To Advertise
