Toronto, May 12, 1924 Miss B. H. Speight, Secretary Hydro-Electric Com., Acton, Ontarib.

Door Madam: We take pleasure in enclosing a opy of the annual report of the Acton Hydro system for 1922, as it will appear in our records. You will note that the cost of power has been decreased by \$1,773.28, which is the difference between the actual cost to this Commission and the sum of the twelve interim bills which were sent out taken up in

You will also note an increase n the sinking fund equity \$1.927.62, which represents the equity acquired in the lines of this Commission, the Teronto Power Company, and the Ontario Power Company, plus interest at four per cent. per annum on the previously accumulated balance. The amount re Toronto Power Company is somewhat abnormal, due to the fact that we have this year included several years' accumulation, thus bringing your, books up to date. The sinking fund equity account measures the progress being made by Acton in acquiring title to the developments

and transmission system operated by this Commission These figures will be incorporated in your books the first time our representative is at Acton, and the year's operation, which as you will note, shows a net surplus of \$3,497.70, after providing for depreciation to the extent of \$720,00. and must be very gratifying to Your truly,

R. C. McCallum, Auditor of Municipal Accounts.
