## Chevrolet Brings Town and Country Close

TT is no longer necessary for the farmer to remain a recluse—for his children to forego the youthful companionship which they all crave. Neither is it necessary for the town or city dweller to think of the countryside as a delightful place to be visited only at vacation time. The automobile has made communication swift and easy. It has brought friends near each other, though they live miles apart.

And Chevrolet has made it possible for almost every Canadian to enjoy the benefits of an automobile. For Chevrolet is not only an exceedingly low-priced car, but it is also the most economical car in the world to maintain.

Even though you have not the ready cash with which to purchase at present, the General-Motors Acceptance Corporation makes it possible for you to pay for your Chevrolet while you are using and enjoying it.

Investigate Chevrolet and learn how easy it is to own and operate.
