### CHILDREN WITH DEFEC-

TIVE EYES . There are far more of them than most people suppose. They may or may not be backward at school. But it is certain they do not progress as they should if they had the help of glasses. Parents, don't take it for granted that your children have normal sight. Let us tell you the FACTS for the present and future welfare of your children,

best on the market.

What Outfit Shall I Buy? This article is addressed to those who are thinking of acquiring a Radio outfit for their entertainment, as there are many who wish to

know what outfit they should buy. There are three important things

· (Concluded from Last Isaue) known for their stability and So-called loop sets, unless they their integrity Unknown .. sets. are exceptional, require at least or obscure makes should be four or more tubes. It is true. shunned just as you would shun that there are some three-tube reflex sets that work on a loop. an unknown automobile or an unknown phonograph. If somebut we doubt if such sets can thing goes wrong with a widely receive from great distances. known and advertised radio set They will probably scrye well you will find little difficulty in enough for local stations. having the trouble rectified. So much for the technical side This, no a rule, is not the case of the question. The next thing most people ask is, why outfits with the unbranded and unknown sols. have such a wide variety of prices. Again the answer is that As for the best time to buy a radio outfit, that time is now. he make and style govern the price. You can buy a good pair of shoes for \$3 and you can buy a good pair of shoes for \$20. according to the material. Gen-All the latest models are on the market this very minute. Do not lut the argument that radio outfits will be greatly improved orally speaking, the higher pricin the future deter you from buying a set. Of course radio ed sets come in better finished cubinets, the tendency now beoutfits will be improved in the ing toward "Turniture" sets. future. So will automobiles. Such apparatus ranges from houses, shoes and overything olso. You know full well that \$200,00 upwards, and may not work better, speaking of the five yours from now the automobile will be vastly improved over your 1924 model. That does not \$100.00. The difference in price

> used when contemplating the purchase of a radio set. Even with all improvements coming in radio, your set will be good for neveral years, just as un automobile or a phonograph. This does fot hold true only
