Brief Local Items

February 5 is with us.
Zero weather again last Sunday night.
This has been a busy winter for the snow shovellers.
The January thaw evidently got its dates mixed this year.
The days are brightening, and the sun's rays strengthening.

Some one must be stepping on the gas, judging from the speed at which it is going up in price.
There was no eclipse over our Brains' shadow on Monday. Six weeks more of winter. But that's all right.
The ladies of the Methodist Church are preparing for a Bazaar Sale, to be held sometime in March.
Nay, Yorick, O.T.A. doesn't stand for Old Toppers' Association. They're "agin it"—Shoburne Economists.
The band is now playing Wednesday and Saturday evenings at the rink from their new band stand recently erected.
At the town of Campbellford the municipal auditor are Mrs. C. Turner and Miss W. Hooper. They are experienced accountants.

The complimentary reference to the "graveyard" etc. with regard to this time, in no doubt the writer did not mean it any more than we did when referring to Oakville as a "dead town"—Hortmer.

Rev. J. Culp to Retire

His Physician Orders Him to Take a Year's Rest; Expects to go to California at Midsummer

Rev. J. Culp, the honored pastor of the Methodist Church, ceased his active and arduous work when he announced with very manifest feeling at the morning service last Sunday, that he was retiring from his life when a rest is imperative, if years of usefulness are to be his in the future. For some time he had been threatened with a constitutional breakdown, but he had gone forward with his work in the hope that the threatened weakness would pass. A recent critical examination by his physician had been made. The physician remarked that he was burning the candle at both ends, and must take a prolonged rest for recuperation and rebuilding of physical strength. It was his purpose, he said, to continue his work here until the close of the conference year in June, and had referred to the matter "this early" to allow the Board to take the prompt action toward securing a successor.

The matter came formally before the Council Board at the February meeting on Tuesday evening. The feeling of regret on the part of the members that the pastor is in poor health, and that the church is in need of a pastor, was freely expressed. A pulp supply committee was appointed and the pastor is to be asked to continue his work here until the close of the conference year in June, and had referred to the matter "this early" to allow the Board to take the prompt action toward securing a successor.

Consummation of Union

Arrangements Being Made for a Spiritual Celebration and Consecration in Toronto

Amid the clamor of controversy on Church Union, and the hustle of voting on the question of non-concurrence in congregations it is not to be forgotten that the realization of Union is no close at hand, and that in about four months the two churches of Canada will be both fact and fact in this Dominion.

Notwithstanding the withdrawal of several congregations from the Presbyterian Church, the total of the United Church of Canada will consist of some nine thousand congregations scattered over every part of the country. The combined ministry of the two churches is about three thousand, in addition to which it will have a staff of about 630 missionaries. The United Church have a wider missionary program than any one of the separate churches, it will have a million fields in India, Africa, China, Japan, Formosa, Korea, Trinidad, and South America.

Essay and Poster Contest

An Opportunity for Students and Pupils to Win Substantial Prizes

The Department of Scientific Temperance Instruction, under the W. C. T. U. of Ontario, is offering prizes for the best essays and posters to be written by the High School of Acton. Students will receive full information of the different subjects for essays from the teachers of their schools. In the "White Ribbon" Pledge for January the following advice is given regarding posters: "Constructive, not destructive posters—Constructive posters: Destruction; Skull and Cross Bones Taboo."

When attending the Scientific Temperance Conference of the American National Public Health in Chicago in November, Mrs. Francis Stoddard of Scientific Temperance, Boston, declared: "No more Skull and Cross Bones. We want no more destructive posters, we want Constructive posters."

The following were a few of the subjects treated, on exhibit there: "Broadcasting the Good News—Prohibition is here to stay." (A Radio with Loud Speaker). "Give the Babies their Birthright—Health without Alcohol." (A laughing baby, frost with health). "Scotch Fingering the very best at per lb \$1.40. Monarch Down at per 2 oz. balls 35c. All Eyes Should be Examined
We believe the day is coming when everyone's eyes will be examined by an Optometrist. People at present attach enough importance to eye strain. Causes are common when they have not sought eye strain all their lives and don't know it. That shouldn't be. Finding out early about the eyes is important. Our best care and attention await you.
