Perpetual Care at Fairview Cemetery

The Tilsonburg News, whose excellent editorial on "The Care of Cemeteries" appeared in these columns two weeks ago, with editorial comment, refers to the matter again in last week's issue, and says: "We can assure Editor Moore that if Acton adopts the cemctory commission plan for perpetual care, it will the tax on the gasoline purchased by tourists from the have quite satisfactory results if the management is placed in competent hands."

The Boys Want Prohibition

One of the warmest debates at the Boys' Parliament recently held in the Legislative Building, Toronto, was on the O. T. A., and it is a significant fact proving the town, you do not throw away your that the boys who in many cases cannot rememin face of all that has been advanced against the O. T. A. by its opponents be found unanimously in favor of the prohibition measure. At the conclusion of their debate a resolution was passed calling for continuance of the prohibition of the liquor traffic in Ontario, and also that an educational campaign be prosecuted to acquaint the rising generation with the real evils of unrestrained liquor drinking, as known in the days when John Barleycorn was unfettered in the province. It is encouraging to see the boys favoring prohibition because it means that in future when the old guard that opposed it has passed away the friends of the liquor traffic will be few .indeed.—Alliston Herald.

A Wide-Spread Evil

The revelations following the serious embezzle ments at Hamilton the past fortnight prove that the evil of gambling has a strangle-hold on multi tudes of people in that city, as it perhaps has in other cities and towns. The illegal "hand-book" of ficers scattered promiscuously over the city looks suspiciously like connivance somewhere, unfortun ately. A great many well-meaning people regard gambling as a minor evil, difficult if not impossible to suppress in the larger places, and on the whole confined to those whose financial standing is such that they do not suffer by it. "Camblers are usually men who can afford to lose. They do not deserve much sympathy," is a common, view of the matter. This is, however, not true to the facts which have been disclosed in the city named. Pathetic, indeed, is it to learn that young men on moderate salaries or wages have been ruined through this growing craze for gambling. Homes have been broken up; families have suffered sorrow and disgrace, and the results have been heart-rendering in many cases. Added to this is the moral delinquency which has characterized the operations. It is to be regretted that numbers of young people are rather prone to think the ban against all games of chance is unjust and unreasonable; the too strict-view of the churchmembers only. Those who are most familiar with the dark side of life know that the attitude of opposition to every kind of gambling is the only safe course, and Canada's laws generally take strong ground against all gambling practices.
