Freight 89%c., per 100 lbs.

The difference to the Grower in the above example is \$60.00 but to Mr. Slater is only \$3.60, so you can see the more turnips sold by Mr. Slater in October at 10c. per bushel works out to his advantage, but to the Grower the more turnips sold the worse off he is. This fact was plainly evident in the closing of October pool. The Audltors report gave Mr. Slater at 6 per cent. gross receipts award \$4,350.00. The Growers' proportion was 5%c. per bushel. Now we will take the car to an operation in Guelph a short time Birmingham in October. The Growers received \$60.00 and Mr. Slater \$22.11 pupil attending a Hamilton High on Saturday, feeling much improved for selling them, as Mr. Slater charges the Grower 36 and two third per cent. of the value of the turnips.
