#### A Defect Requiring Attention

A spring has developed near the centre of the roadway on Main Street, opposite Mr. D. A. Henderson's property. As this is but a few yards from the intersection of the highway with Main Street there is a great deal of traffic at this point. Old road builders say the difficulty can be readily overcome by running lines of field tile, at points two or three yards apart, to connect with the existing lines. It should be repaired at once, as the water running down the road keeps it in an untidy condition and tends to damage the roadbed further along.
