Place-Babylon. The Text Explained 1. Daniel's Noble Purpose. 8-13. The Book of Daniel is one of the most remarkable and instructive books in the Bible. It has been well said that "no man is a thorough Bible student who is ignorant of Daniel, or whose study of it has been shallow." "Daniel purposed in his heart that he would not defile himself:" this is the key to Daniel's life and the secret of his power and success. Daniel had a very sound heart and so his whole life was sound (Proy. 4: 23). The real purpose of a man's heart tells what the man is. -It is this that God looks at (2 Cor. 9: 7; 8-12; Luke 16: 15). There can be no steadiness of life and action without steadfastness of purpose. 'The purpose of Daniel was fixed and unalterable. Carrying it but involved a great daily sacrifice and great perll, but there Daniel stood, and God, of defile himself." The king's meat and

A BIT OF COLOR

Everyone knows the effect of color n dress. A black hat with just a touch of red or yellow in it, quietly and tastefully disposed, is far more striking than any blaze of many-colored gorgeousness. A plain white frock, of a morning, needs pink or blue ribbons at the neck for waist to give it freshness and vivacity. An evening gown, all gray, may be very restful. very perfect very personal; still, if you know how to use color with it and when, the charm is more varied and more completer

may be tranquilizing to five with. You may resent the idea of breaking it by sharp intrusions of harsher hues. And yet just a small vaseful of guy-tinted flowers may give something that you feel was lacking, may give a warmth and cheerfulness that will alter tho whole current of your thoughts. It is so with some lives, with many women's lives, especially where the sombre hue is not a matter of design, but the fatal result of circumstances that cannot be controlled. We do not mean the tragic lives, the lives of intense and bitter misfortune. We mean the gray lives, the lives that seem to run in one eternal inevitable rut of dusting and cooking and washing and sewing ad buby tending, without end. or change, or hope. None of these things are hateful in themselves. Often moderate indulgence in them might be charming. It is the monotony that kills, the dull prospect of the same old clothes to be mended in the same old

Your lives have their hard spots, their tired spots, and their discouraged spots. Often you come home for cheer and consolntion, and you get it, and you think to yourself, "Ah, she doesn't have to take the hard knocks." Perhaps she has enough even of those. But the worst to her is that long gray monotony. And such little things can break it: A day's outing at the beach will suffice, if you cannot afford a week at the nountains, or an evening at the concert. It does not much matter what it is. FACTS ABOUT TEA SERIES-No. 5

What 'Orange Pekoe' Means

Many buyers of tea have come to ask for 'Orange Pekoe' believing that it signifies fine quality. This is not, however, necessarily the case. In the trade 'Orange Pekoe' is only a name given to the first leaf below the bud or tip on any Indian or Ceylon tea bush. An 'Orange Pekoe' leaf grown at a high elevation usually possesses a very fine flavour. If, however, the plant is grown at a low elevation, it may still be 'Orange Pekoe' but also be of very poor quality. The consumer's only safeguard is to buy a tea of recognized goodness. High grown 'Orange Pekoes' comprise a large part of every blend of "SALADA" and give to "SALADA" its

unequalled flavour.
