What Do You Do When the Sales are Slow?

YOU, MR. MERCHANT, believe that YOU are entitled to a fair share of the patronage of this community. At the outlay of considerable capital, you have laid in a stock suited to the needs of the people. They certainly give you a chance to do business and make a living.

The FREE PRESS is exactly in the same position as you are. We have invested money in a well-equipped printing plant. We issue what many readers say is the best country newspaper they have ever seen.

THIS OFFICE has in stock commodities that you need. They are of the very highest quality--- 100 per cent. efficiency. The goods are a staple, but the stock isn't moving as it should.

WHAT DO YOU DO, Mr. Merchant, when the goods don't move as you think they should?

WELL, this is what we are doing--telling about the goods you need in the hope of convincing you that you need them.

WE ARE ADVERTISING our goods. We are advertising Advertising.

DON'T YOU THINK that is a pretty good plan?

Why not Move Your Goods the Same
