EDITORIAL

The Condition of Fairview Cemetery

The letter of "Citizen and Plot Owner" last weel has evidently stirred up the people who are interested in Fairview Cemetery, and they are expressing themselves with a freedom never before manifested. The people are evidently in real earnest now in the request-if not the demand-that proper steps be taken to ensure that conditions which have existed this summer shall not again occur. There appears to be two things now decided upon by those placing their views before the public. These are that a caretaker must be placed in charge who can give his whole time to keeping the cemetery, its walks, plots and drives, in neat and satisfactory condition through the summer months; and that the administration of the premises be handed over to a Commission properly appointed, with adequate authority. These steps being taken, the adoption of the perpetual care system, so successfully in operation in many other cemeteries throughout the country, will inevitably follow. All interested should now act and not allow this import ant matter to ond in talk

Coming Back to Town

It does not matter much how pleasant the vacation has been, how delightful one has found the change from town life to country or lakeside life; when the time for returning to the old surroundings and the old routine arrives, we are seldom very reluctant to go. Our home may be little and the furniture shabby, but we feel that we will be glad to see them again. Our occupation may not be the most interesting in the world, or our success in its astonishment; yet somehow the more agreeable activities of vacation tend to make us contemplate it with less distaste and more hope. And we quite rejoice at the prospect of seeing again the faces of our friends and fellow workers; we did not in the least mind leaving them, but we are aware of a distinct eagerness to rejoin them. Perhaps the foretaste of return is sweeter than the fact. The house is uglier and the furniture shabbier than we remembered them as being, your check book shows a smaller balance than we had intended it to show, the work is as dull as ever, and our friends are not half so excited by our reappearance as they might be. But the disappointment is fleeting; we are more alive to the compensations of our life than we were before we broke place to come back to;" we are happy to be earning our living at the task for which we have fitted ourselves. The afterglow of the welf-spent vacation is really the best part of it.

It Is Appreciated

"That's a splendid evidence of community spirit," visitor noted on Sunday evening, while the openair band concert was in progress. " For a town of this size to have a band like that means more than your people can realize. I hope they appreciate it as it deserves." The appreciation was evident, to a good extent, in the hundreds of town people and the scores of cars gathered around Sunderland House, most of whom remained through the whole programme. But other appreciation was expressed in hundreds of homes in the neighborhood and at a distance, where the programme of sacred hymns and sacred numbers was a very pleasant feature of a quiet Sunday evenbers on Sunday night that a little more evidence of was quite as much noise in three or four Ford cars, federated with Canada, where it naturally belongs. the drivers of which were discourteous enough to start and race their engines while numbers were in

EDITORIAL NOTES

What's the matter with our boys and girls? A gother worthless and bad, and perhaps statement issued by the Dominion Bureau of Statis- in hard for us to get at. Twelve men tics show that juvenile delinquency is increasing, with are needed for a jury; and certainly no the greatest increases in Toronto among cities and oven upon an English sparrow, without Ontario among provinces.—Mail and Empire.

"In three months in Winnipeg," remarked Editor Thomas, of the Bracebridge Gazette, on his return against him for everything had in the from a tour of the West, "more cars of grain were inspected than all the grain at Minneapolis, Duluth yet. And I must turn and take the and Chicago put together. It is well that Canadians should keep such things in mind."

The press of Ontario has been showering compliments on the ACTON FREE PRESS on its fiftieth auniversary and congratulating its editor, H. P. Moore, on the excellent-manner in which the FREE PRESS is edited and printed. There is certainly none better whizzing, flashing through the leaves, toria, B. C., are visiting friends in the and it has but few equals.—St. Marys Journal.

King George has appealed to the public to pro- would have blinded him quickly and tect the parks from unsightly litter, says a dispatch. Yes, and if King George could see the streets and in him than the red squirrel. A sudden tiring from farming, with his family, one-seventh. sidewalks at the Main-St. Lawrence Street junction, at Winchester on a Sunday morning, he might change his appeal to a demand for a better condition.—Win- at one, barely missing it. But the tile left on Monday for Erin, in charge of body apparently laughing at him. he chester Press.

For the three fall months of September, October ed quick as a cat, as sure as if had trip to Williamsport, Pa., to visit Mr and November, the duty of 25 per cent. on grade sheep imported into Canada from the United States them for bredding purposes will be removed. The reason for this step is the fact that for the past two or three square, and the rush of a troop into N. Y. years there has been a gradual decline in the sheepbreeding industry in the Dominion.

Mr. Meighen predicts that the Progressive members elected in Ontario during the next election will be able to ride down to Ottawa on a bicycle. In case Six sparrows fighting like so many from the late Mrs. W. J. Dewar. Mr. watched them float away. Then he of a misunderstanding of the meaning of this pro- squirrel. He could have handled the phecy, why not say that it is a tribute to Ontario's redstarts, but they were standing well and shop of the late firm of Buck, & form with dismay. His new suit was good roads?-Globe. It is very likely the Progres ing made it entirely their own. sives of Ontario will have something effective to say He backed into a forking branch and chaser, price \$8.500

Almost every issue of the daily papers carry announcements of death by drowning. These accidents almost without exception, could be avoided. Bathers and swimmers who think cautiously and use their best judgment seldom or never meet death by drowning: Think well yourself in this connection and caution your friends who seek deep water for bathing for out of his fork he leaped, pawing and swimming; neither of which require a greater the air and the leaves in a reckless depth than four or five feet.

The head of thhe New York police department believes that the automobile and the revolver are the greatest agents of crime and he therefore proposes that crimes committed with the assistance of these be given a double penalty. The man who is determined upon crime will find a way to commit it, other call of distress. The only effective deterrent is strict and prompt punishment, not for the means by which the crime is performed, but for the crime itself .-- Newmarket Era.

The town of Mount Forest engages the band of neighboring town to give a nightly concert once week. They find it a paying investment. We have good band in Winchester, and their Saturday night concerts are becoming so attractive that our main for new gowns. Fashion is a wilful streets will not accommodate the car traffic .- Winchester Press. And this, too, is Acton's experience. The sacred concert given by our band last Sunday evening, after the Church services, gave the town a real reputation for superior band music.

.The assets of Canadian universities in 1924 amounted to \$80,864,627, the income to \$10,541,874 and the expenditures to \$11,716,921. These figures are given in a preliminary report on higher education in Canada issued by the Dominion Bureau of Statistics. The registration at the universities in Canada for the academic year ending June 30, 1924, was 39,372, about the same as in 1923. Of this number about one-third were ladies.

One result of a municipality guaranteeing bonds away from the routine of it; we find in the streets, for factories is shown by the experience of Grand officen years and observe what artiin the shops, the houses and the crowds a stimulus Valley. A year ago the village guaranteed \$10,000 to which before departing from them we had cet ed bonds for the Acme Handle Co. Now the Council to what present fashlons will follow to respond. So we get into our stride again; we say has given instructions to the solicitor to foreclose on to ourselves, "After all, the old town is a pretty good the industry, which has \$6,000 liabilities, including a power account of \$1,000. Happily Acton's experience has not been of this nature. Our "encouragements" have proven of distinct advantage to the town.

> The Canadian custodian of alien enemies properties, Hon. A. B. Copp,/Secretary of State, has now in his hands over \$12,000,000 representing a balance so far realized from the sequestration of German property in Canada during and subsequent to the Great War. What action if any, may be taken toward the release of such sequestered property by the Canadian Government, is a question still undecided. Better keep it in abeyance for a year or two vet, till it is seen whether Germany is really preparing for another war or not.

A reduction of one cent an ounce on Canadian mail to Newfoundland is announced. This means of the fipe arts. a reduction from 4 cents to 3 cents on an ordinary ing after the church services. Acton does appreciate letter. The old rate was 4 cents an ounce for the its band. But it occurred to one listening to its num- first ounce and 3 cents an ounce for each subsequent ounce or fraction. The new rate will be 3 cents for magnitude of life. this appreciation in whole-hearted applause would not the first ounce and 2 cents on all subsequent ounces be amiss. True, there was a scattering of hand- of fraction thereof. This should bring Canada and clapping after two or three of the numbers but little Newfoundland closer together. It is to be hoped enthusiasm or spontaneity about it. Indeed, there the island colony will in the near future become

The unusual amount of space in several provincial progress, as in the hand-clapping. The band does papers being devoted to the activity of the bootlegits best to entertain the citizens and visitors, and gers these days would seem to be paving the way which is the real one. For those who in these Sunday evening concerts is usually care- for the introduction of a light beer and wine bill into ful to preserve the spirit of the day in its music. the Nova Scotia Legislature. Our prediction may quite possible; because nother has Something more can be done in the courtesy to be prove incorrect, but time will tell what the Rhodes' shown to the band and the other listeners. That sort administration will do in this regard. If such a bill No friendship is worth much that never of thing means just a little more of the community is introduced and passed, however, thousands who spirit the visitor admired, and which goes such a assisted in the election of the new government long way in helping to make people happy. This, could not conscientiously grant it their further supafter all, is the secret of the truest and best com- port. It will be interesting to witness what occurs in

this connection. The one evil, that of bootlegging, we have with us, why add a second?- Windsor the minister remarked, as he entered Canada is a great country with wonderful re- (N.S.) Journal. Do not, by any means, permit them sources, but Canada lacks some in unity of purpose. to persuade the people that stronger beer will elimin There is too much provincialism and not enough Can- ate the bootlegger. of the green saved him. In the darkness beneath this the doughty troup left him, and scattered, to wait an-

A USEFUL TEST

The milliner would not adopt as

notto Kent's immortal line. "A thing of beauty is a joy forever." It is the milliner's aim to construct hat which shall seem to its wearer "perfectly lovely" to-day, and "perfeetly horrid" three months hence. The dressmaker would gladly achieve the same result, and so double the demand at the planing mill and lumber yard favorite, and she is so for her own profits. The relation of a woman to her clothes often resolves itself into n rear-long struggle between the caprice of the milliner-modiate and her own good sense and thrift. In spite, however, of the apparently

irreconcilable enmity between Keat and fashion, Keats is right. In other words the thing which is not a joy forever is not truly beautiful. That fact may be made useful by the multiude of women who from their circum stances must decide for themselves what is beautiful although they have ittle instruction and meager examples The charm of a home resides in grea

art in adornment. That may be of the simplest and be beautiful; or may be of the most expensive and by ideous. By what magic shall an untrained homo-maker distinguish between -the lovely and the ugly? The test of time is a supreme test Let the housekepeer look back over

those discarded "joys" into the limbo

Wax flowers under glass cases have soap and water. So have those wondrous tidles known as "throws," in the time. which were flung "careless like" over the corners of picture-frames, apthose claimants to be "Jays forever" which have been discredited and disallowed and which point the way down which much more "household art" will travel in the passing years.
