RARE OLD DANTIES

Americans are sometimes accused o having too great a fondness for hot bread, and are told that stale is more wholosome. If this is true, the Assyrian loaf that was recently discovered by an explorer and archocologist ought to be a particularly desirable bit of nourishment. It is supposed to have been baked somewhere about the year 560, B.C., and was in excellent condition when found. -It is bun-shaped, and was found wrapped Is one of a dim, old forest, in a cloth in a tighty-closed sarcophain a cloth in a tighly-closed sarcopha-

Some decidedly ancient loaves were found a few years ago at Pompeli. An oven, well preserved, was unearthed, and in it were resting several charred loaves, with the baker's name still Coquetting all the day with the sunplainly visible on them. The bakers of Pompeli made their loaves round, with indentation that permitted them to be broken into eight parts.

Perhaps the most remarkable dinner on record was that given by an antiquarian named Goebel in the city Brussels. An account of it has been can scientist. "At that dinner," he In the lap of that old, dim forest says, "I ate apples that ripered more Light as the down of the thistle, than 1,800 years ago; bread made from Free as the winds that blow, wheat grown before the children Israel passed through the Red Sea, and spread with butter, that was made when Elizabeth was queen of England. But his feet on the hills grew weary, The apples were taken from an earthen jar from the ruins of Pompeil. The wheat was taken from a chamber in Sweetly his pale arms folded one of the Pyramide; the butter from a gione shelf in an old well in Soot As the light of immortal beauty land, where for several centuries, had lain in an earthen crock in Icy
