## The Federal Election in Halton

It is now being very generally felt that the election in this county at the General elections for the House of Commons, on the 29th of October will be one of the very keenest that has been fought in this riding in many decades. Dr. R. K. Anderson, Milton, who has been the representative for the county in the past two parliaments is again the choice of the Conservative party. His opponent, as has already been announced, is Mr. Duncan Camp-Liberals of Halton. It is many years since a Liberal candidate was chosen to contest the riding so well known throughout the county as is Mr. Campbell. He is a successful business man on a large scale throughout the riding and bears a reputation for sterling honesty and integrity in all his transactions which have been largely among the farming community. Mr. Campbell's laudable effort to introduce pure bred and high class stock in Halton has borne salutary results. Many farmers have been encouraged to improve their herds and better cattle are found quence. When a member of the County Council Mr. new minister beyond peradventure. Campbell proved very effectively that he was possessed of a remarkably intelligent grasp of county affairs, especially as they effect the rural sections municipalities of Halton-both rural and civic-resulted in an equalization of the assessments of the four townships and the five towns which had never previously been secured. Mr. Campbell knows Halton intimately; he is acquainted with its needs of legislation; he has the ability to present these needs ably, and withal, as a prominent and practical business man, he has the ability and experience to intelligently survey the needs of Canada, agriculturally, industrially and generally, and will make a representative of the people in the House of Commons worthy of the county and its interests. As the campaign proceeds and the date for the election apleeaders in the contest that the prospects for Duncan Campbell as representative in the House of Commons for Halton are exceedingly bright.

A Rise in General Business Activity . The August summary from the General Commercial Engineer's office of the Bell Telephone Company says: "August figures indicate a continuance of the rise in general business activity. This tendency is greatly due to the increase in the year's wheat crop and the higher price obtained for it There has been a rise in the metal markets over July and foreign trade has increased steadily. The retail and wholseale trades still indicate little change al though jobbers report a slow but steady increase, with a more optimistic feeling among buyers in retail stores throughout the country. Labor conditions continue to improve, the number of persons employed being nearly 5 per cent. greater than last year while wages are nearly 4 per cent. higher. The value of dairy products has greatly increased during the year. The aggregate value of all dairy products reported for 1924 was \$124,143,470, compared with \$120,120,390 in 1923. During the 12 months ending June 1925, there were 25,096,120 pounds of butter exported, valued at \$8,934,795, a decided increase smounted to 13,668,380 pounds, valued at \$5,031,63%. Both the C. N. R. and the C. P. R. show a big im-political patronage." provement in their net profits. During the month of July, the net gain was \$1,924,940 as compared with of August, gross carnings have shown an increase total according to the bulletin issued by the McLean Building Reports Ltd. In respect of foreign trade Canada is doing fairly well, the value having increasmonths, according to the Montreal Gazette. There ors of amalgamation amongst some of the foundry ment. This movement should mean much in the stove; upholatered couch; wooden bed supply houses, both in the East and West, with a ultimate effort to ensure world peace. view of cutting down operating expenses. According to a bulletin issued by the Canadian Pacific

#### The Close of Wembley

The close of the great Wembley Exhibition at hand. The entire exhibition has been a valuable object lesson, and no one country has merged into the sunlight more than Canada. Quite apart from Casson, 11, Park-road-north, Acton, Museum at South Kensington. Lads the Canadian Pavilion bringing home forcibly the capacity of the Dominion, not only to provide homes and R. C. M. for countless thousands of the British race, and also to furnish new avenues of profitable trades and investments, Wembley has brought about the public passed high up on the list of qualifyrecognition of Canada as a great manufacturing inspector. country in many salutary ways.

#### Prohibition in the United States

Health, moral and safety conditions of the United L. Dobs, rosigned. States have improved in the first five years of prohibition, official statistics gathered by the United States Press from federal departments show very and R. C. M. and Dorothy Jock, passed conclusively. The alcoholic death rate has decreased from 5.8 to about 3 per 100,000 of population since Pupil of Miss Stredder. 1920. The annual death rate from all causes has fallen from 13.92 to 12.37 per 1,000 of the popula- gratuity for a suggestion made to the impositor, and perhaps discount the tion. Communicable diseases are less prevalent now than ever before and the average longevity of the gine-driver, of the same depot, has George could only say, "Frankly, you American race has increased six to eight years since been commended and awarded a grat- know, I believe I killed it myself." 1920. Home building has increased 152 per cent. since prohibition, while purchases of small houses have trebled. At the same time "home wrecking by intoxicated men has almost vanished, it is claimed.

#### Fairview Cemetery Perpetual Care

The Municipal Council continues to accept perpetual plan contributions for Fairview Cemetery, without having made any intelligent estimate as to the actual cost of performing what, is tactily agreed upon to accomplish. It is manifestly certain that \$50 College Hospital, Denmark Hill, to as a principal payment will not adequately ensure satisfactory perpetual care. This system will realize buck to 1869, and he remembers Miss an annual income of but \$1.50 or \$2.00, whereas it has been proven that cemeteries under the perpetual very enthusiastic terms of our volun- a biography recently published in Engcare system required an annual expenditure of \$3.00 atton on his eyes will probably be he was in an English restaurant, to. \$4.00 per plot. By the acceptance of a number of payments for the perpetual care of plots the Council has in effect adopted the plan of perpetual motoring at thirty-four miles an hour. care. It is a plain duty now before the Cemetery Clifford Henry Daulby, of Byron-road, Committee to prepare a careful estimate of the cost Police Court on Wednesday in last of the work undertaken and have such estimates confirmed and passed by the Council and filed for future reference and action. Is is also reasonably expected that the Council will prepare an agreement or undertaking, properly executed and supplied to each contributor to the Perpetual Care Fund, statbell, of Moffatt, who is the unanimous choice of the ing explicity what service is to be rendered in return for the payment made.

#### EDITORIAL NOTES

In less than four months the provincial gasoline tax has yielded the province revenues of over \$1,300, 000. This will go some considerable distance in meeting bills for highway construction.

Durham Progressives will support the candidature in the value of politeness, the Chairof Hon. Vincent Massey in the Federal election man fined defendant 5s. on the farms throughout the county as a conse- This action will probably ensure the election of the
