School Premises The Board of Education Requests

Consideration by the

Council For some time the Board of Educaion has had under consideration the securing of property adjacent to the school grounds, in view of the increasing population and consequent increase in enrollment of pupils. The property is now available at reasonable prices which it is felt should be secured. The Council hesitates about taking action. The people of the town, who are interested in educational advantages of the community are quite outspoken in favor of present action being taken to secure the properties desired.

At the regular meeting of the Council held this week on Monday evening, Councillors Thetford, Mason and Atkinson were present, and the Reeve in the chair. The twenty-second report of the Finance Committee recommended the

payment of the following accounts:

Important Work For Council of 1926

Mr. Angus Kennedy, of Guelph, was Municipal Matters Demanding the Careful Consideration of

Next Council There are several important matters which should receive careful consideration, and as far as possible, definite action by the Council selected for administration of the Municipal affairs of Acton during the coming year. Some of these are comparatively new proposals; others are matters which have been overlooked, neglected, or deferred for some reason year after,

1. Proper drainage of the roadways on Mill and Main Street should be effected. As they are; at present, the Mrs. J. W. Barberree spent a couple surface water lies on the sides after of days this week with friends in every rain storm and the macadam and gravel have become disintegrated in many places. If proper levels are Mr. and Mrs. T. N. Wansbrough, of taken and drains made or tiles laid Fergus, visited at R. H. Wansbrough's to existing drains, this undesirable

condition can be obviated. Mrs. E. F. Collier and Miss Annia 2. Some system should be devised. or the present system be studied until properly understood, so that when repairs or extensions to waterworks mains are to be made the whole This method is annoying to all waterusers, and dangerous to those using water fronts and heating systems. In minion Bank, Toronto, spent the week- any event, until the system is so administered as to avoid the method of cutting off water for hours at a time, due notice should be given all citizens system was operated by a competent commission the experience of three was the guest of Mr. and Mrs. M. weeks ago, when the water was cut off for some three hours, would certainly have been obviated.

3. The adaption of some satisfactory system of fire alarm, so that citizens may know if a fire really exists. and, if it does, what section of the

town it is situated. 4: The adoption of the Perpetual Plan for the care of Fairview Cemetery, with a caretaker giving sufficient time to the work to keep it in a condition which it deserves, and which is so generally desired. A fund for perpetual care has already been opened, through the bequests of some and the payments of others, but no definite plan for care and admin :: ration has been prepared. A Cemetery Commission or Committee would readily accomplish that which has not

yet been attempted. 5. Co-operation with the Board of Education to secure the much-needed and very desirable addition to the Public and High School grounds. Ample additional territory is now available at reasonable cost. This may not be the case in ten, or evenfive, years honce.

6. Improvements to our splendid 14acre park, which will make it more really a park for our citizens, and more satisfactorily a Tourists Park for the thousands of tourists motoring through on the Provincial Highway. Every tourist who stays even a night leaves money for various supplies amongst our merchants and business men. Many towns are finding subter, Mrs. G. H. Milno, on Friday, 13th stantial profit in catering to the tourist traffic, Acton had a share last season. These observant visitors were complimentary in their remarks respecting the ske and natural beauty of the park and its environments, but town are rather meagre. New park entrances on Park Avenue and Knox Avenue will greatly enhance the ap-

pearance of the park. 7. The re-coating of the sections of the Provincial Highway passing through the town should be considered. The readway on Young, Mill and Main Streets may all be materially

improved. 8. A matter which has been deferred for years is the collecting and consolidating of the effective by-laws of the corporation, which govern the conduct and preserve the property and person. These are administered by the Police Court and should be availis one of the provincial delegates to able to all concerned. The fact that the Police Court has yielded revenues of between \$700 and \$800 this year, for fines, removes any criticism as to visitors at the home of their mother lishing of these by-laws. Indeed, the and sister, Mrs. John Brown and Miss fact of their being available in concrete form would not only facilitate the work of clerks, constables and magistrates, but would make free of access and interpretation by-laws which are now violated with more or less impugnity, but would naturally increase the amount received in fines resulting in their enforcement.

factorily put into effect by a competent and observant Council. LIGHTS ON ALL VEHICLES

Halton County Council Favorable, but

Prefers Provincial Law Regarding the proposal of compelling all vehicles to carry lights at night. the County Council in session last week, expressed itself as favoring provincial legislation rather than placing the onus of putting such a by-law into effect on County Councils. A-resolution expressing the opinion that the passing of such a law should

rest with the Provincial Government,

and not with individual counties, was passed. For the most part the members were in sympathy with the movement to have vehicles carry lights, but it was day afternoon showed that the worthy felt that difficulties would arise betalent of the A. C.S. was coming to tween countles unless the measure was

MAYOR OF DUNSTABLE

Miss Lucy Dales, has been elected Mayor of Dunstable, England. Her father cast the only vote against her. He has been Mayor for one year, and his daughter performed all the duties of the job, but he opposed her taking office on her own account, Asked if he wanted the job again himself, he replied: "Oh, no. I have had enough and
