Granite and Marble Works We are manufacturers and direct mporters of all kinds of Monuments and Headstone work. We sell direct to our customers at wholesale prices, thus saving our customers 40 per cent: We have the best appliances and the only mechanics in the Dominion who can operate pneumatic tools properly. We can give references from hundreds of our customers in Toronto and other places, whore others have to have law suits in order to collect. We have the largest and best stock of Granite in the Dominion, or more than any three dealers in the West. We are legitimate dealers and employ no agents. and do not annoy or pest customers by sending out ignorant agents soliciting orders—we employ only mechanics and defy competition.
