

FROM ONE TO THREE
The year she had left behind
Upon the British cake
This couldn't flow it out, and so
We did it for her sake.
Only a crumb to let her know
We cared not in the least.
The year she had left behind
The muddled at the feast.

HOW OUR LEADER LEFT US

BY WALTER WELLMAN

IN NAME was John Miller, though only twenty-four years old, he had spent half his life in the most remote parts of the earth. Unreeling in his mind, he had seen and described, had he wandered to and fro, he had been in Australia, bushwhacking on the ranges; in South Africa, among the diamond-diggers; in the almost unknown interior of China; in the jungles of the Congo, where he had left his poison in his blood; and now he was with us, far up towards the stars, in a glacier-enclosed Spitzbergen.
