Jail Term for Bootleggers

When Government Control of the sale of liquor Standard-Observer. The penalty referred to as like- body gets to the top. ly to be imposed under the new Government Control law will be salutary and deserved. The writer evidently forgets or is unaware of the fact that jail terms for bootleggers are provided under the Ontario Temperance Act. From this county alone, three bodfleggers, sentenced under the Q. T. A., are at the two at Burwash and one at Guelph Reformatory. During the past years numbers of bootleggers have served terms in juil in this county.

Good Roads Resential to Community Life and Comfort

The building of improved roads has come to be overwhelmingly to heatow it on somebody." an important point of community life. Every progressive city and town must have its leading streets paved, of course, but more and more the far-sighted | adian National Railways, has changed from a deficit business men, and in fact all residents generally, of of thirty million dollars on operation to a gratifying every community, are realizing the benefit, yes, it surplus of fifty millions. If this keeps on our Namay be reasonably said, the necessity, of encourage tional Railways may yet become our most profitable ing of the building of improved roads, so that travel national utilities. may be comfortably undertaken over any sideroad or concession line. Changing World Conditions

The voluntary entrance of Germany into the League of Nations changes the character of the League, as seen by many foreign nations, from an association of allies victorious in the Great War to a league embracing all nations cherishing a spirit of goodwill. The United States professes not to be behind, other nations in desiring co-operation, but whereas other nations are prepared to sacrifice something for the general good; to forego prejudices and to make concessions to the desires of others, the United States will not accept membership unless she is given her own way .-- Toronto Star.

A Victory for Disarmament

President Coolidge won a signal victory for his disarmament proposals in the House last, week when his supporters killed an amendment to the Naval Appropriation Bill, providing an appropriation of \$450,-000 to begin construction of three scout cruisers authorized by the 1924 Act; which the President opposed. The victory came on the heels of a request by the President of an additional appropriation of the American Government in the work of the proparatory commission for the disarmament conference to be held in Geneva under the auspices of the League of Nations. Movements under way for world peace, emphasized by spokesmen for the President, it is believed, overcame the revolt in the House against the Administration and swamped the big navy advocates. The United States will eventually side up to the other nations which are making pro- to play.' I tell 'em I guess you don't leather pouch on his forehead, in gress toward disarmament and world peace.

The Tedium of Life When Real Success is

Good pavements are one of the luxuries of the twentieth century. In 1900, Mark Sullivan, tells us I'll have to try to live up to it. I in his fascinating "The Turn of the Century," there never thought of rivalling Mr. Ford. were less than ten miles of concrete roads in the rides. But I did concoct a simple United States; but in 1925, there were 25,000 miles of such roads in that country and Canada. We are accustomed to gliding smoothly from place to place with so little jolting and jarring, that we are surbecomes the law of Ontario the penalty for boot- prised and resentful when we encounter a bit of me the small box on my deak. Lesson Thames Every Scripture. Paul was not un-

aware of the literary activities of his contemporaries. He believed that the Spirit of God was a silent partner, in the production of some of these first Christian records, Gospels, hymns and Epistles. After reminding Timothy of the Bacred Writings which he had known from his youth up and from which he might gain wisdom unto salvation, the apostie declares in offect that not only those sacred Old Testament writings, but "every scripture inspired by God"-that is, every ecripture with the production of which the Divine Spirit has anything to do, "is also profitable for teaching" and for "instruction in rightpousness." as well as for "reproof and correction," which are the negative factors in the same would say: "Yes, Timothy, the writings of Hebrew lawgivers and prophets are still our textbooks, but God

more perfect instruction in the Jeaus Profitable for Teaching. The books of the libbe were produced from the sense of obligation to phase on to others the rollglour truth galacd, by the writ: insight and experience. They were produced in response to a need to religious information and guidance Individual books of both Old and New Testaments were written as actual textbooks of instruction. During the centuries since the completion of the New Testament the Bible has been translated into practically all the languages of the world and distributed to the ends of the earth in the inter-

ests of a world-wide programme o Christian teaching. In a similar way the writings of the Christian fathers, of the medieval church, and of the Reformation leaders were intended primarily for pur poses of religious histruction, as were also the formulated creeds, of the church, the decrees of the church councils, and in particular the homthes . breviaries and .catechisms that creuse of teaching literature registers the growth of the Christian Church of the educational activity of his ag-

gressive, religious fellowship. Scriptures, Written and Unwritten. The heavens declare the glory of God," wrote-the Panimist. The oldest Scripture is therefore the created universe, for the universe is older than the Bible and older than man. The especially in the New Testament, which gives us God's revelation in Christ, but the Berlyture .. which no man can fall to understand, and from which he can never entirely ascape is that Scripture written not in the skies or the seas nor on tables of stone E would complete a nice ions word." It meets man's deepost need. The post Whittier wrote: "Really the conveneing reason why, we receive the lible as the Word of God is because it accords with our highest intuition. We find the law and the prophets in our own squis. Our hearts burn within

us as we talk with Jesus through the New Testement." And again he said. "No revelation of science, no destructive biblical criticism can shake the faith of those who listen for the

Sugara Cuts Feeding Costs 50%

The Sugar Jack System

-- is a perfected feeding process that has produced amazing results. It not only does away with the expense of a silo, but also increases the milk flow and weight of your live stock and cuts your feeding costs in half.

The Sugar Jack

converts roughage into/an easily digestible state-making it actually more palatable and nourishing than the highest quality ensilage and hay. Thus, roughage, such as hay, straw, clover threshings, bean and pea vines, etc., will give better results.

Here's How It Works

The Sugar Jack press and converter compound pre-digest roughage into highly nourishing feed. This predigested roughage feed is relished by live stock, and the farmer using it enjoys greater profits and owns healthier, fatter live stock.

Come In and See Us

We will gladly explain how the Sugar Jack will increase your live stock profits and save you time, labor and money. It's a wonderful, new feeding system that no enterprising farmer should be
