The Motor Car's Toll

The automobile has been the only blot on the unexcelled public health record of 1927. In that year, automobiles took no less than 25,000 lives among the people of the United States. In addition to these fatalities, there were at least 1,000,000 non-fatal injuries arising from the use of automobiles. These figures, which are estimated by Dr. Dublin, an insurance company statistician, are based on the loss of life in automobile accidents among more than 18,000,000 industrial policy holders of the company. Approximately 40 per cent. of these deaths affect children under 15 years of age, with the heaviest concentration between the ages of five and ten. Most of these deaths happened while the victims were at play on the streets or while they were crossing the streets.

Business Improving with Coming of Spring

In its business summary this month the Bank of Montreal Bulletin has the following to say: "The approach of spring finds business generally in fairly satisfactory condition, both wholesale and retail, and with confidence still prevailing that the immediate future will not be marked by any recession. Price variations continue within narrow limits, and in itself is helpful to business. There is still a large store of wheat to come forward from the Western Provinces at the opening of navigation, giving a favorable outlook for lake shipping. Car loadings for the week ending March 10 were slightly less than in the corresponding period a year ago, but the cumulative total this year is still in advance of the movement for similar periods in 1927 and 1926, the gain being due in substantial measure to a larger grain movement since January 1. The lumber trade cannot be said to have improved in volume. Miscellaneous merchandise has moved in larger quantity."

Discipline and Duty

Dr. Charles Gordon, probably better known as Ralph Connor, is undoubtedly one of Canada's greatest teachers and whether speaking in church assembly or banquet hall always impresses his hearers with the sublimity of his message. The other day he addressed the students of Runnymede High School, Toronto, on "The Making of a Citizen." In his remarks the famous author emphasized the place discipline and duty played in life. He intimated that education did not merely mean the securing and storing of knowledge. This he averred was commonplace, the real value of education being the training of the faculties and perceptions. "Education," he declared, "trains a man to use his mind and powers at the time and in a way he should use them. Discipline trains all the powers. It takes the mental, physical and spiritual and co-ordinates into an activity that represents the man that is highest. Duty is carried into the higher reaches of life. It is what man owes in all his relations of life. Man ought to do his duty to everyone in his environment. Beginning at home, duty is in all phases of his life. He owes it to himself, to his family, to the state and in the highest and greatest sense to God."

Nearing Settlement

According to reports the long drawn out dispute between the County Council and Trafalgar Township is about to be settled. And Trafalgar, by its action has lost. The Bill ratifying the by-laws was before the Provincial Parliament this week. The County Council, at its session last week, allowed the payment of \$1,500 per year on the debentures, as it was felt that this amount should be allowed to cover the cost of maintenance between a cement highway and a gravel road. Several sessions of the special committee were held last week with Hon. Mr. Henry, Minister of Highways, the Private Bills Committee, and other meetings, and the matter now apparently nears settlement. In the County Council the vote on the recommendation for the payment of the share of \$1,500 was favored by all present, except the representatives from Trafalgar Township and Daville. It is said that the Trafalgar representatives claim that the Township will not accept this payment. But possibly better judgment will rule when they consider that their first case has been lost in the courts and nothing is to be gained by continuing. Surely the people of Trafalgar are not in accord with the continuance of this action, which the more it is delved into has a more disreputable phase for the actions of the Township.

Newspaper Advertising Better Than Any Other Form

J. F. Kelly, Chicago department store president, at a recent address before the convention of the National Electric Light Association, stated: "Without appearing to hold a brief for the newspapers, we are of the opinion that, dollar for dollar, our return from newspaper advertising is much greater than from any other form of advertising. The utility of mailing lists for advertising purposes is exposed by the Postmaster of Chicago, who estimates that hundreds of thousands of dollars are literally thrown away every year in this way. Addresses are obsolete, there are no return cards, and much of the mail is sent to the Dead Letter Office. Furthermore, a great deal of this unsought literature is consigned at once to the newspaper basket." The Chicago Postmaster or carrier could testify that a great deal more of it, which reaches the party to whom it is addressed, is not even carried home to the wastepaper basket, but is flung upon the floor of the post office.

Where Canada Spends Most

An indication of the prevailing encouraging condition of business in Canada is given in the Canadian trade report for the 12 months ended January 31, 1928. The total trade of the Dominion for this period was \$2,325,762,281, an increase of \$24,861,262 over the 12 months ended January 31, 1927. Of this total, exports amounted to \$1,237,943,566, and imports \$1,087,818,715, a balance in favor of exports of \$150,124,851. The United States, as for a long time past, again holds the leading place in Canadian trade. In the 12 months under review Canada bought from the United States goods to the value of \$706,436,729, or about \$71 per head of population of the Dominion. The United States was Canada's best customer as an individual country, with total purchases at \$474,033,356; Great Britain was in second place with \$407,386,546. Canadian imports from the United States were valued at \$463,876,005, which is more than the total value of imports from the whole of the British Empire. Canada's principal foreign trade is done with 29 countries.

"Bearing the Cross" (?)

Ten cents a week, or the price of a soda, is enough for the Lord in the opinion of some of the families in a church in Montreal, New Jersey. There are other families who attend the church, and think it can get along without any financial help from them at all. The church budget, according to a pamphlet recently issued, is \$35,000. There are 408 families in the parish, and 145 families contribute nothing, leaving the total burden to the others. It is equally interesting to learn that there are 431 automobiles in the 408 families, or more than one automobile to each family. Here are some other interesting items, which may have a familiar ring to the real workers in some other churches: "Forty families pledge per year less than the cost of one tire. One hundred and nineteen more families pledge per year less than the cost of two packages of 'life-savers.' Seven more families are happy to contribute per week the cost of one soda. Twenty-eight more families estimate the church's blessings per week equal to one admission to a Montreal movie (if one sat in the balcony). Forty-six more families prize their religion in terms per week less than half a pound of candy. Twenty-two more families are content with a weekly gift of the cost of two and a half gallons of gas. How far will the car go on that? Fifty-one more families count it a joy to subscribe per week a sum equal to what many men spend for smoking in one day. Forty-nine more families are satisfied with a weekly pledge of the amount spent for one luncheon at a moderate-priced restaurant. Why go further? Oh, yes. One hundred and forty-five more families have pledged nothing. Their church membership being totally carried, their church dues entirely paid by others."—Literary Digest.

EDITORIAL NOTES

If these roadside exhibitions of spring loving in cars on Mill Street are examples of the modern freedom of youth, parents would be well advised to tend to the children in the old-fashioned way of spanking.

It has been decided to hold the annual convention of the Canadian Weekly Newspaper Association at Edmonton this year, during the first week of July. There will be side trips to Jasper Park and other points in the Rockies. Over 200 members and their relatives are expected to attend the convention.

Post Office Money Orders to the number of over 15,760,000, having a value of more than \$188,000,000, were issued during 1927 by the Canadian Post Office Department. This represents an increase of 50 per cent in five years, and may be taken as evidence that business in Canada is in an encouraging condition.

A newspaper article the other morning told of a drunken man attacking persons with his teeth and inflicting injuries on a woman which resulted in her death. Under the O. T. A. this would have been blamed on "swamp whiskey." Under this educative system of liquor control it is blamed on bad teeth. Possibly the man should have his tonsils removed, too.

The amount of \$1,372,547 is being distributed to members of the Saskatchewan Co-operative Wheat Producers, Ltd. This sum represents the earnings by the Saskatchewan Pool Elevators Ltd., from handling more than 80 million bushels of grain in the 1926-27 crop year. It includes the earnings from both country and terminal elevators after deducting expenses, depreciation interest, and a reserve fund. During the 1926-27 year the Pool operated 587 elevators.

"What is more important than the signing of peace treaties and the making of international alliances for the peace of the world is an aroused public conscience against the utter horror and frightfulness of war," declared Frank B. Kellogg, Secretary of State of the United States, at a dinner in his honor given by the Council on Foreign Relations at New York last week. The people generally of all nations will agree with this sentiment. Call off the war lords and peace for the future will soon be assured.

THE SUNDAY SCHOOL LESSON FOR SUNDAY, APRIL 1

General Lesson Title—Jesus the Suffering Messiah.
Scripture Material—Mark 8: 27-37.
Text—If any man would come after Me, let him deny himself, and take up his cross, and follow me.—Mark 8: 24.
Devotional Reading—Isa. 16: 1-11.

The Text Explained
27.—Caesarea Philippi—This city was probably known in the most ancient times as Bani-Gad. It was located by one of the zones of the Jordan, on the lower slope of Mount Hermon. Greek settlers gave it the name Panias. Herod Philip gave it the name TRAPANI of the Decapolis (the northeastern section of Palestine from 4 B. C. to 34 A. D., rebuilt the city and called it Caesarea in honor of Augustus. It was known as "Philip's Caesarea," to distinguish it from the more important Caesarea on the Mediterranean. The place is now known as Banias. The population of Caesarea Philippi was a district was in large proportion heathen in our Lord's day. Jesus withdrew into their neighborhood was a "desert." 28.—Jesus the Christ—Some supposed Jesus to be a reincarnation of the Egyptian god, who had recently been killed by the Jews. The Jews expected a Messiah who would return to life as the promise in Malachi 4: 5. One of the prophets—Isaiah—reincarnated. 29.—The Christ—Hebrew, Messiah—The Anointed. The coming of all pious Jews were eagerly expectant. 30.—Tell no man—The time was not ripe to announce who he was. 31.—Who said this?—The question was asked by Jesus most often applied to Himself. After three days—Matthew and Luke say the extent of time counted in the unit time which began the reckoning and that Jesus was really in the tomb about thirty-six hours, an entire day and small fractions of two other days. But according to Hebrew usage, it was spoken of as "three days and three nights." Peter found fault because he feared that this sort of talk would injure the morale of the disciples.

23.—Jesus the Christ—Some supposed Jesus to be a reincarnation of the Egyptian god, who had recently been killed by the Jews. 11th Service of the Canadian Medical Association CRIPPLED CHILDREN

There is nothing that touches the heart of humanity so much as the sight of crippled children. There is always a willingness to do what is possible to lighten the burden of their affliction and to brighten their lives. This is a commendable spirit as it gives evidence of man's regard for those who are not so fortunate to be himself. There is no child who has a damaged limb or whose organs are deficient in any way to just as much a cripple as the child whose bones are twisted. It is right and just that suitable and extra attention should be provided for these crippled children. Because of their handicap, they need special care and guidance in their education. While this is true, our chief concern should be to prevent any child from becoming crippled and, as a result, handicapped in life's venture. It is a fact that the condition of many of these children could have been prevented by care and proper treatment at the right time. Many damaged hearts result from diseased tonsils and teeth which are not properly and promptly treated. Much permanent damage results from such diseases as measles and mumps. If we wish to protect our Canadian children, then it is our responsibility to have well equipped health departments forerunning which seek to prevent conditions that cripple children; to bring to the attention of parents the need for proper treatment; and which seek to spread knowledge concerning prevention.

20.—The Christ—Hebrew, Messiah—The Anointed. The coming of all pious Jews were eagerly expectant. 30.—Tell no man—The time was not ripe to announce who he was. 31.—Who said this?—The question was asked by Jesus most often applied to Himself.
