The Text Explained

SPEEDING UP FREIGHT SERVICE

The recent installation of Mack Tractors and Lapeer Trailers by the Dominion Transport Company Limited, for the transfer of l.c.l. freight between the Canadlan Pacific Place Viger freight sheds and their outlying terminals in Montreal, was demonstrated before E. W. Beatty. 9 .- They that went before, and they Chairman and President, and other exthat followed-These included not only contives of the railway outside the Windsor Street station.

Mr. Bently was specially interested in the mechanism by which the trailer is connected up with the tractor. This is done by the simple operation of backing the tractor slowly into the trailer. Uncoupling is actuated from the tractor by the simple moving of a lever. The President had these operations performed several times and expressed his appreciation of their simplicity. Coupling and uncoupling of the trailer,
