

THE LIGHTS OF HOME

The white lights, the bright lights,
How fair they shine to-night
I love the light and gleam of them,
The changing tones of them,
Against the lowering night,
They are to me a beacon light
To guide my barque aright.

Those far lights, like star lights
Affirm along the bay—
No prince of India's envied gems
Nor flash of Lumbard diamonds
Bring my soul to them—
Lodestars that draw me home again
If perchance might stray.

Oh, dear lights, oh, dear lights
The last long tapers in a row;
The winds among the condense creep
Gray veils of mist from upward sweep
The melancholy sea is vast
How bright they are to welcome me
The lights of home at last—
—A. J. Montgomery.

The Old Man
WORTH WHILE

They had spent the day fishing in a cold, driving drizzle. But they were returning to their baskets and sorry tired tramping.

As they entered the village a dog ran at them barking furiously. One of the fishermen pushed it away with his foot.

"Aren't you afraid it'll go for you?" asked his companion.

"No, I'm not," replied the fisherman. "I've chased a hundred of 'em."

"What would you do to disperse a crowd?"

"Well," replied the fisherman, "I'd chase a hundred of 'em."

PIRESTONE COMPANY ENLARGES PLANT

Half Million-Dollar Addition Allows for Greater Development in Tire Industry

Hamilton, May 16th—Another extension in Canadian tire industry was reported today, when the half-million dollar addition to the Pirestone Tire & Rubber Company of Canada, Limited, Hamilton plant, was opened for operation.

This progressive company commenced operation in Canada six years ago. Since that time it has been compelled to keep its plant on an average of 15 to 20 per cent over the increasing demand for tires.

The new addition enables the company to use the latest methods in tire construction, making a better tire at the least cost to the consumer.

The improvement in Pirestone tires is the result of the research work of engineers, chemists and designers. New methods of construction and development have enabled Pirestone to give the public a new and better tire.

The increase in the sales of this tire is largely due to the co-operation Pirestone gives its dealers. Pirestone tires are sold through reputable dealers who give the public a Master Tire Service.

Specially designed repair equipment is supplied to Pirestone dealers, and educational meetings held to keep abreast of the times in selling and servicing Pirestone tires.

Pirestone's greatest achievement in tire building is the Gum-Dipping process. By this extra process, every fibre of every cord in the tire is placed under tension, which prevents the strands chafing against each other and causing internal friction—the greatest enemy of the tire.

Gum-Dipping made it possible for Pirestone to produce the first balloon tire that has revolutionized the tire industry and allows the maximum degree of safety and comfort from these tires.

Foster's, located on Upper Wyndham Street, in Guelph, is the Mecca for the well-dressed women of this section, who have found this store headquarters for ready-to-wear clothing and those little accessories so essential to the women of to-day.

Though many miles removed from New York, which is known as the style center of the continent, this efficient establishment is thoroughly up-to-date and is replete with the models of the hour in the various materials and shades which have been approved by the world's leading arbiters of fashion.

No sooner has any style been accepted by the leading fashion authorities of the nation than it at once makes its appearance in this store and is presented in a variety of materials for the choice of the people of this section.

At Foster's are always found not only styles and materials in most popular vogue to-day among society leaders, but the more conservative and judgmental garments that have met with universal approval. As regards price, you will find that these garments, which hang in graceful and becoming lines, are offered at most reasonable figures for which this store enjoys the patronage of the leading citizens of the community, it is the most popular store among people of every walk of life.

You have at your service many little necessities of dress which characterize the attire of the progressive woman of to-day, and one must look far and wide to find a stock more complete and attractive.

At Foster's you will always find the same courteous and accommodating service, the same high quality at reasonable prices, and the same metropolitan atmosphere which actually brings Fifth Avenue to your door, while at the same time taking into consideration the needs and demands of the people of the community, and it is predicted in this review that the future will see even greater strides in the progress of their business.

Efficiency in Home Management
Women to-day as well as men, are just beginning to realize the service that electricity has to offer. We who once thought of electricity as an expensive luxury, are beginning to see how electricity is being used to save labor and increase production in the home. Without a doubt the home that you now occupy is not as replete with these modern comforts as it might be. Picture to yourself the modern kitchen. It has a good setting light with a handy switch. It has side lights and several convenient outlets for your electrical appliances. Now, contrast it with the usual kitchen, perhaps your own. It has only a centre light—generally one you have to reach up to turn on. What would you rather live and work in?

Plan Your Shopping
After a housewife has planned her meal she is faced with the task of securing the food. Men are generally the outstanding feature of the menu and nothing is more prevalent than the lady of the house being forced to call on half a dozen markets in order to purchase the cut and grade of meat she desires for her table. The women of this district who have experienced this difficulty appreciate the service and better meat offered by the Guelph's Meat Market, which is located on Cardin Street, Guelph.

Unequaled Savings on Standard Car Makes
Many of us would like to own a car. We have the money, but we don't have the car. The only thing that keeps us from realizing this dream is that we do not seem to be able to afford a new car of the style we want. This is a good deal of the reason why a used car is a good deal of the style and price we can afford.

Granite Memorials Stand Test of Time
The large number of monuments placed in the cemeteries show in what appreciation the people of this section of the county hold Mr. Parworth's work. The design stand as examples of expert workmanship and designing. They are the admiration of all who see them.

Making Meals Interesting
In planning meals the housewife has an eternal problem. Twice daily she is confronted with the question of variety. One way to make the meal interesting is to vary the bakery products. Bread has always been the "piece de resistance" of the menu and to-day it can either be baked or purchased in fascinating varieties—loaves, rolls, cakes, and pastries. The principal ingredient of bread making is the flour. It is well to discriminate when making your purchases. Many bakers and housewives testify that Show Drift and Dictator flour are the best. The Guelph, Ontario, branch of the Guelph Company, of Guelph, are constantly on hand to help you in your selection of flour. Perfectly milled to a soft, powder-like texture, rich and creamy white in color, Dictator flour makes the most delicious pastry, flaky pie crusts and golden-brown biscuits at a successful Show-Drift makes perfect loaves of bread.

The Spectacle Peddler
Perhaps you remember the spectacle peddler and his case? He called around from door to door and fitted grandmother with glasses. He was as sure a caller as the milkmaid or the peddler. It was a familiar character in the town square as was the Indian herb doctor, the "pain-killer" band, or the leader of the German band.

KING EDWARD'S THOUGHTFULNESS
The fact of King Edward VII. endeavoring to bring the hearts of the people outside of England as well as to his own subjects, is one of the attributes of a foreign monarch and the inspiration he made the letter of the story is an old lady who has lived at the court since her youth.

Definite Plan Aid in Home Furnishing
Tucked away in our minds is a dream picture of what we desire our home to look like some day. Often, however, the picture is so hazy that when the actual moment of furnishing comes along, the easiest thing in the world to be lost is the very variety displayed in the shops, and pieces of furniture bought for their casual appeal not only fail to harmonize properly but go quickly out of style.
